

**MADANAPALLE INSTITUTE OF TECHNOLOGY & SCIENCE**  
(UGC - AUTONOMOUS)

**Report on**  
**Guest Lecture on Skills for Information and Communication Technologies**  
**Organized by Dept. of CSE & III Cell - MITS**  
**20-21 September 2016**

**Submitted by: Mr. Mr. M.V. Jagannatha Reddy, Asst. Professor, Dept. of Computer Science & Engineering, MITS.**

Skills Mentoring program was conducted by department of CSE in association with III cell for second year students from 20-09-2016 to 21-09-2016. Skills Mentoring Guest Lecture was delivered by **Dr. Gowdara Pandu**, Co-Founder & Chief Talent Mentor, **TALENT Mentoring LLP** Company. He has lot of experience in Indian Air Force; product based MNCs. He has four decades of experience in academia. He worked in UK, Canada and South Africa. He is also entrepreneur and supporting product developer for NFC (Near Field Communication) for Cashless Solutions of major event management and Education.

Day 1: 2<sup>nd</sup> year 'A' Section students

Day 2: 2<sup>nd</sup> year 'B' & 'D' Section students

The main objective of conducting the introductory TALENT Mentoring program is:

- To bring Self- Awareness among all the Computer Science & Engineering students about the view of THINK BIG and MAKE IT HAPPEN in the present world of Information & Communication Technology.
- To Mentor all the students to focus on “**Creativity and Innovation**”
- To encourage faculty members for giving required support to students, who have been scoring excellent marks right from SSC, HSC and throughout engineering courses.
- To conduct the Skill Mentoring program in such a way that Engineering students can learn Technology, Innovation, Entrepreneurship and soft skill in an interactive and funny way rather than serious one way lecture based classes.
- To make all the Engineering students to understand importance of Attitude, confidence, Time Management, responsibilities towards their family, institution and society.
