

MADANAPALLE INSTITUTE OF TECHNOLOGY & SCIENCE
(UGC - AUTONOMOUS)

Approved by AICTE, New Delhi & Affiliated to JNTUA, Ananthapuramu
Accredited by NBA & NAAC, Recognized under section 2(f) & 12 (B) of the UGC act 1956
An ISO 9001 – 2015 Certified Institution

Report on
A Workshop on Robotics

02 - 04 November 2018

Submitted by: Dr. Subhasish Mahapatra, Coordinator, COER

The event was started by Dr. Subhasish Mahapatra, Coordinator, COER. He highlighted the importance and benefits of the workshop especially for the students of MITS, Madanapalle. This workshop was a continuation of the training process which was conducted during 11-13th October. The objective of this workshop was to train the students for 3 days and students will continue their research on robotics for a complete year. Hence, 63 students had been trained for this workshop and groups of 5 members are formed to conduct the research activities. They categorized the groups in 3 different robot designs: Breadbotix, Autonomous and Underwater. The program schedule for the workshop followed as

- First day: Our experts delivered a basic idea about robotics followed by the mechanical designing of the robots assigned to each group.
- Second day: The students were trained to do circuit designing for the robots as well as programming of the specified robots.
- Third day: The students trained for hands on experience in moving the robot and to do motion planning and also an interactive session was conducted with the students to ensure the continuation research in future.

Apart from that, Sakrobotix Lab has provided 12 robots to our college which were designed by our students during the workshop. In future, they will also provide more robots to our college to conduct the research program.

Overall the workshop was informative and the students were gained all the basic knowledge about Robotics designing, programming and motion planning. The Lab is going setup in our campus very soon in which our students will do research in future.
