27.03.2024

Report Submitted by : Mr. Toralkar Pawan, Assistant Professor, Department of CSE- Artificial Intelligence; Mrs. R Dhanalakshmi, Assistant Professor, Department of CSE- Artificial Intelligence.

Resource person Details: Mr. Richard King Chatragadda, Region Head - Academic, TCS

Report Received on 01.04.2024.

Mode of Conduct: Offline.

The Department of Artificial Intelligence at Madanapalle Institute of Technology & Science organized a one-day National Level Technical Symposium "AURA-2K24" on 27th March 2024. The event, themed "Artificial Intelligence Unleashed: Revolutionary Advancements," was inaugurated by the Chief Guest Mr. Richard King Chatragadda, Region Head - Academic, TCS, alongside Principal Dr. C. Yuvaraj, Dean of CSE Dr. Goutham Chakraborty, HOD of AI Dr. K. Chokkanathan, and Conveners Mr. Toralkar Pawan and Mrs. R Dhanalakshmi.

It was truly an honor to have Mr. Richard King Chatragadda with us on 27th March 2024. His extraordinary speech has not only motivated our students but has also left a lasting impact on everyone present here. His journey and experiences have served as a beacon of inspiration for all of us, showing us that with determination, hard work, and strategic career planning, we can achieve great heights in our professional lives. One of the key takeaways from Mr. Richard King Chatragadda's speech is the importance of acquiring career planning skills. In today's dynamic and competitive world, having a clear career path and knowing how to navigate through various opportunities is essential. Mr. Richard King Chatragadda's insights have shed light on the significance of setting goals, continuous learning, and adapting to industry trends to ensure a successful career trajectory.

About Chief Guest:

Our Chief Guest, who has worked for 30 years in IT Consultancy, with the last 21 years in important roles at Tata Consultancy Services (TCS), has been Global Delivery Head, Country Manager, and Director of TCS Malaysia, showing great leadership and strategy skills. He is the Region Head for the Academic Interface Programme in TCS Hyderabad Region, which includes Andhra Pradesh and Telangana. Our Chief Guest is known for building strong relationships with customers, managers, and teams.

In AURA 2K24 we conducted technical, non-technical and online events. Technical events are Code Crafting, Paper Presentation, Brainstorming and Ideathon. Non-Technical events are Pace Run, Escape Room, Movie Mania and Fun Rooms. The online event is Flash Fiesta. The total number of participations for AURA 2K24 was 605 students.

S. No.	Event Name	MIT's Participants	Other Colleges Participants	Total Participants
1	Code Drafting	44	6	50

				Total=605

Paper Clips

OUTCOME:

The Technical Symposium was a significant milestone in fostering knowledge exchange, collaboration, and innovation within the technology ecosystem. The success of the event was made possible by the active participation and contributions of attendees, speakers, sponsors, and organizers. Moving forward, the insights gained, and connections made will continue to drive progress and advancements in the ever-evolving field of technology. We extend our appreciation to everyone involved and look forward to the continued growth and success of future editions of the symposium.
