

A Guest Lecture on "Insights of tasks in Data Science and AI " Organized by Department of Artificial Intelligence and Data Science in the occasion with IEEE Student Branch Feb 2nd 2023

Submitted by : Mr. K V V S Trinadh Naidu, Associate Professor, Dept. of AI & DS

Report Received on 06.02.2023 Organized in association with: IEEE STUDENT BRANCH, MITS (STB64791) **Participants Attended:** 127

The program started at 10:00 AM with a welcome address to all the participants by Mr. J. Viswanath. The Vice Principal Dr. P. Ramanathan inaugurated the program along with Dr. K. Chokkanathan, Assoc. Professor & HOD, MITS, Madanapalle. Head of the Department AI and DS introduced the resource person Dr. Veningston K, Asst. Professor, Dept of Computer Science and Engineering, NIT Srinagar. The resource person joined the session offline to share his knowledge and experience on the title, "Insights of tasks in Data Science and AI".

Asst. Prof. Dr. Venningston K delivered his talk on some of the topics related to Artificial Intelligence (AI) and Data Science (DS) are now ruling the world, AI is involved in every digital object we use, Artificial Intelligence is also being used in every software. Now this Artificial Intelligence is very useful in arts, graphics, paintings, fantasy projects and the world of imagination created by this technology. He said that we will see soon beyond the current Artificial Intelligence(AI) technology, there will be Artificial General Intelligence(AGI) technology that can think like a human, take decisions and solve problems

Apart from that, the demand for data-related fields is increasing like that jobs are also increasing in fields like logistics, business intelligence, machine learning, data architecture and data science. He Said that the demand for data Science jobs has been increasing exponentially in the last few years. He said that coding, analytics, math's, statics, data visualization are all eligible for this and the salary is also good, so the demand for these jobs is increasing compared to other fields also. And he discussed many more. The participant's queries were answered by the resource person. The session was concluded successfully followed by a vote of thanks by Mr. J. Viswanath and Head of the Department Dr. K. Chokkanathan.
