

## NSS CELL

### MADANAPALLE INSTITUTE OF TECHNOLOGY & SCIENCE

#### APJ Abdul Kalam birth Anniversary

Dr. APJ Abdul Kalam, also known as the 'Missile Man of India' was born on 15 October 1931. His full name was Dr. Avul Pakir Jainulabdeen Abdul Kalam and this year we will be celebrating his 91st birth anniversary.

The 11th President of India, Dr [APJ Abdul Kalam](#) has contributed to India's development in missile research and development and his achievements and contributions have no comparison. He has not only left his footprints in the science industry but also in other fields that interested him like philosophy, literature, and language.

He also wrote a number of books including *Wings of Fire: An Autobiography*, *India 2020: A Vision for the New Millennium*; 22 poems, and four songs during his lifetime. Here are a few inspiring quotes by the 'Missile man of India' on his birth anniversary.

India Inc. has plenty to cheer about in creating awareness of the challenges that Persons with Disabilities – visible and invisible – regularly face. Executives are learning about the struggles of persons with disabilities (PwDs) that are not visually apparent and re-designing their workplaces to address the customised needs of all their employees. The intent to assimilate PwDs into the workforce is clear. But how far have we progressed in executing these policies into actionable practices? And why should India Inc focus its synergies on greater integration of PwDs into their organisations?

Disability statistics in India are highly under-reported. And the situation is particularly dire for women who are twice as disadvantaged owing to their gender and disability. NGOs and social sectors have been pushing the cards to enable these women to access equal job opportunities that are suited to their skill set.

NSS cell, Madanapalle Institute of Technology & Science celebrated Dr.APJ Abdul Kalam Birth Anniversary on 15-oct-2022, almost 50 volunteer students and faculty members were participated.

Some of the photo clippings of program are furnished below.
