**Report on Anti-drug day conducted by MITS-NCC through seminar on June 26 2024**

On June 26, 2024, MITS – NCC commemorated the International Day against Drug Abuse and Illicit Trafficking, also known as World Drug Day, which is observed annually on June 26 to strengthen action and cooperation towards achieving a world free of drug abuse. This year's World Drug Day campaign recognizes that effective drug policies must be rooted in science, research, full respect for human rights, compassion, and a deep understanding of the social, economic, and health implications of drug use.

Lt. Dr. N. Naveen Kumar contributed by presenting an SI writing and chat that offered a comprehensive overview of Anti-Drug Day, aiming to enhance awareness and understanding among attendees.

Let us amplify our efforts to combat the global drug problem, guided by the principles of science, compassion, and solidarity. Through collective action and a commitment to evidence-based solutions, we can create a world where individuals are empowered to lead healthy, fulfilling lives.
