

MADANAPALLE INSTITUTE OF TECHNOLOGY AND SCIENCE (UGC – AUTONOMOUS) ENGINEER'S DAY

Engineers' Day, celebrated on September 15 in India, honours the invaluable contributions of engineers and commemorates the birth anniversary of Sir M. Visvesvaraya.

This day holds significant importance as it recognizes and celebrates the profound impact that engineers have made on society and development. It pays tribute to Sir M. Visvesvaraya, whose pioneering work in civil engineering and infrastructure has greatly influenced modern engineering practices and national development in India.

The day underscores the crucial role that engineers play in addressing complex challenges, advancing technology, and driving economic growth. It highlights the profession's impact on various sectors.

In recognition of his remarkable contributions, the Indian government declared September 15 as Engineers' Day. In 2024, the day will be observed on Sunday, September 15, celebrating his legacy and the significance of the engineering profession.
