All esteemed guests and dignitaries are cordially invited for the seminar program. After that Dr A V Pavan Kumar HoD/EEE given welcome address and said the vision is to make our forum a hub of innovation and learning. Together, we will work towards organizing workshops, seminars, and hands-on sessions to ensure that every member gets the chance to enhance their technical skills and industry readiness. We will invite thought leaders and professionals to share their insights, creating an environment where learning goes beyond textbooks and into real-world applications. everyone for providing this wonderful opportunity.

Dr. P Ramanathan, Principal, MITS, shared his views about IETE student forum. He conveyed about Institution profile and achievements and Professional bodies in the college. Chief Guest Prof Tirumala Ramashree, shared IETE student forum is a thriving community that cultivates growth, fosters innovation, and promotes collaboration in the fields of entrepreneurial ECO System. Finally, he congratulates all the students for actively participating in this event.

Dr.S. Rajasekaran, HoD/ECE, provided information about the IETE and its benefits of becoming a member and encourage everyone to participate actively in the events going to be organized in the upcoming day and collectively share the ideas and do collaborative projects to inculcate the habituation of working as a team. everyone. Finally, he thanks everyone for providing this wonderful opportunity.

An entrepreneurial ecosystem is a network of interconnected actors, factors, and institutions that support the creation and growth of new businesses. It comprises social, economic, and cultural elements, such as entrepreneurs, investors, universities, government policies, and a culture that encourages risk-taking and collaboration. The strength of the ecosystem is determined by how effectively these components interact to provide resources like funding, talent, and advice.

Conclusion:

An entrepreneurial ecosystem is important because it fuels economic growth, innovation, and job creation by providing entrepreneurs with the necessary resources, talent, and support networks. These interconnected elements, which include access to capital, knowledge, mentorship, and a collaborative culture, help startups navigate the challenges of growth and increase their chances of success. A strong ecosystem can lead to increased competitiveness, attract investment, and foster social change.
