### INTRODUCTION:

NATIONAL SERVICE SCHEME popularly known as NSS was launched in Gandhi's Birth Centenary Year 1969, under the Ministry of Youth Affairs & Sports Govt. of India. The scheme was launched simultaneously in 37 Universities involving 40,000 students with primary focus on the development of personality of students through community service and promotion of National solidarity.

In India, the idea of involving students in the task of national service dates back to the times of Mahatma Gandhi, the father of the nation. The central theme which he tried to impress upon his student audience time and again was that they should always keep before them, their social responsibility. The first duty of the students should be, not to treat their period of study as one of the opportunities for indulgence in intellectual luxury, but for preparing themselves for final dedication in the service of those who provided the sinews of the nation with the national goods & services so essential to society. Advising them to form a living contact with the community in whose midst their institution is located, he suggested that instead of undertaking academic research about economic and

social disability, the students should do "something positive so that the life of the villagers might be raised to a higher material and moral level".

NSS works on the premise that it is possible to awaken the villagers and slum dwellers to their responsibilities and develop in them the confidence, to tackle their common problems with energy, enthusiasm and in a co-operative spirit, based on mutual aid and self-reliance. The role of students is limited as activists, enablers, catalytic agents with wider communities and as programme aids.

The main objectives of National Service Scheme (NSS) are:

- Understand the community in which they work.
- Understand themselves in relation to their community.
- Identify the needs and problems of the community and involve them in problem solving.
- Develop among themselves a sense of social and civic responsibility.
- Utilize their knowledge in finding practical solutions to individual and community problems.
- Develop competence required for group-living and sharing of responsibilities.
- Gain skills in mobilizing community participation.
- Acquire leadership qualities and democratic attitudes.
- Develop capacity to meet emergencies and natural disasters and
- Practice national integration and social harmony.

### **SPECIAL DAY NSS CAMPING:**

Special Camping forms an integral part of National Service Scheme. It has special appeal to the youth as it provides unique opportunities to the students for group living, collective experience sharing and constant interaction with community.

The primary objectives of the special camping programmes are:-

- Making education more relevant to the present situation to meet the felt needs of the communities and supplement the education of university/college/school students by bringing them face to face with the community situation.
- To provide opportunities to students to play their due roles in the implementation of various development programmes by planning and executing development projects, which not only help in creating durable community assets in rural areas and slums but also result in improvement of the condition of weaker sections of the communities.
- Encouraging the students and non-students youth to work along with the adults in rural areas, thereby developing their character, social consciousness and commitment, discipline and healthy and helpful attitudes towards the community:
- Building up potential youth leaders by exploring the latent potential among the campers, both students as well as local youth (rural and urban), with a view to involve them more intimately in development projects for longer periods. The local leadership generated during the camps would also be useful in ensuring proper maintenance of the assets created as a result of the camps.
- Emphasizing the dignity of labour and self-help and the need for combining physical work with intellectual pursuits, and
- Encouraging youth to participate enthusiastically in the process of national development, and promote national integration through democratic living and cooperative action.

Madanapalle Institute of Technology & Science has been organizing seven days NSS Camp every year since its inception in 2003. The objective of this camp was to begin the interface with community, support building with community members and developing understanding of the village keeping in view the rationale of village adoption i.e. develops long term institutional relation with the community and contribution to the upliftment of people therein as well as create awareness among volunteers regarding their responsibilities towards the society. The volunteers participated enthusiastically in the camp under the able supervision of Mr. P. Rajesh, programme officer of NSS unit under the guidance of Dr. C. Yuvaraj, Principal, Madanapalle Institute of Technology & Science, Madanapalle.

#### **SCHEDULE**

<b>Date &amp; Day</b>	<b>Activities Conducted in Poojari Vari Palle and Thettu villages</b>	
	<b>Fore Noon</b>	<b>After Noon</b>
28.12.2021 Tuesday	Inauguration of Special Camp Programme	General Senses of difference
