Report on giving tribute to the soldiers of Pulwama attack:

On the account of black day this February 14 2023 MITS NCC has organised a program on which NCC cadets, Lt. Dr. N. Naveen kumar along with teachers and principal Dr. C. Yuvaraj had showed their condolences for the dead soldiers. They also said that the attack ... is despicable and they strongly condemn this dastardly attack. The sacrifices of our brave security personnel shall not go in vain. The entire nation stands shoulder to shoulder with the families of the brave martyrs. Leaders cutting across all political parties, eminent personalities belonging to various fields such as entertainment and sports, had also condemned the horrific attack, which had left the entire country stunned. In one of the posts on Twitter, India's tennis star Sania Mirza had called it a "black day for India". "I play for my country, sweat for it and that's how I serve my country. I stand with the CRPF jawans and their families, my heart goes out to them and they are our true heroes who protect our country. 14th February is a black day for India and I hope we never have to see another day like this, no amount of condolences can make any of this better. This day will not be forgotten and neither shall it be forgiven. The Pakistan-based Jaish-e-Mohammad (JeM) had claimed responsibility for the attack and had also released a video clip of the suicide bomber.
