SWATCHATHA DIWAS

Swachhata Diwas was celebrated on October 1 and 2, 2024, at MITS Engineering College. The event was organized by MITS NCC to promote cleanliness and hygiene in the surrounding community and to instill a sense of responsibility among NCC members. Swachhata Diwas brings people from all walks of life together, inspiring them to take pride in their surroundings and work towards a healthier future. It is a fantastic initiative that helps create a positive impact on society. NCC cadets also encouraged the locals to join in, making the Swachhata Diwas mission a great success.
