World Cancer Day on 4th February 2022

World Cancer Day is a international day marked on February 4 to raise awareness of cancer and to encourage its prevention,detection and treatment. World Cancer Day is led by the Union for international Cancer control (UICC) to support the goals of the World Cancer Declaration, written in 2008. The primary goal of World Cancer Day is to significantly reduce illness and death caused by cancer and is an opportunity to rally the international community to end the injustice of preventable suffering from cancer. The day is observed by the United Nations.

World Cancer Day targets misinformation,raise awareness and reduces stigma. Multiple initiatives are run on World Cancer Day to show support for those affected by cancer. One of these movements are a global movement to have "hairticipants" shave their heads either physically or virtually to show a symbol of courage for those undergoing cancer treatment. Images of participants are then shared all over social media. Hundreds of events around the world also take place.

World Cancer Day was established on 4 February 2000 at the World Cancer Summit Against Cancer for the New Millennium, which was held in Paris.

The Charter of Paris Against Cancer, which was created to promote research, prevent cancer, improve patient services, also included an article establishing the anniversary of the document's official signing as World Cancer Day, was signed at the Summit by the then General Director of UNESCO, Koichiro mastuura and then French President Jaques chirac in Paris on 4 February 2000.

NSS cell, Madanapalle Institute of Technology & Science in association has celebrated World Cancer day on 4th february at 3pm at college premesis and conducted a rally on awareness of cancer. More than 60 participants (NSS Volunteers, NCC Cadets and Staff) were participated in the above event. Dr. P Ramanathan, Vice-Principal-Academics and Mr. P Rajesh, NSS program officer were attended as guests to this event.

On this occasion many of our NSS volunteers were actively participated and they have spread the awareness of cancer.

Photos and news clippings of program are furnished below.
