## MITS DEEMED TO BE UNIVERSITY

(Declared under section 3 of UGC Act, 1956 by Govt. of India - MoE)

### Report on Swachh Bharat Abhiyan

**Date:** 25/9/2025

**Venue:** MITS College Campus and Nearby Areas

**Organised by:** NCC Unit, MITS College

The NCC cadets of MITS College conducted a Swachh Bharat Abhiyan programme to promote cleanliness and environmental awareness among students and the community. The activity was part of the national mission to make India clean and green.

The programme began with a short introduction about the importance of cleanliness in daily life. Cadets then divided into groups and started cleaning various areas in and around the college campus. They collected plastic waste, paper, and other litter using brooms, gloves, and garbage bags.

The cadets also cleaned the roadsides, gardens, and parking areas to set an example for others. Posters and slogans like “Clean India, Green India” and “Swachhta is our duty” were displayed to motivate people.

Many students voluntarily joined the initiative, making it a collective effort toward a cleaner environment. The cadets showed great enthusiasm, teamwork, and discipline throughout the activity.

The event concluded successfully with the message that cleanliness is not a one-day task but a lifelong responsibility. The Swachh Bharat Abhiyan by NCC cadets truly reflected their commitment to service and nation-building.
