Overview of the Lecture

Title: Importance of Effective Communication Skills.

Communication skills play a vital role in one's personal and professional spheres while effective communication skills would facilitate wider scope of growth to an individual in terms of academics, research and development and corporate sector and so on. Effective communication skills consists of appropriate postures, gestures, eye-contact, facial expressions and vocalics. Effective communication skills will be part and parcel of one's interpersonal skills in the society or organization; One's success in an Interview; One's presentation in a seminar or conference or debate or group discussion or decision making; finally one's success is directly or indirectly connected with effective communication.
