

## **A Report on "Mathematics Day Celebrations"**

**Organized by Department of Mathematics,**

**MITS Deemed to be University**

**on 22.12.2025**

**Report Submitted by: Dr. P. Ramesh Reddy, Head, Department of Mathematics, MITS Deemed to be University.**

**Mode of Conduct: Offline.**

**Report Received on 29.12.2025.**

The Department of Mathematics, MITS Deemed to be University, successfully organized the Mathematics Day Celebrations on 22 December 2025 with the active participation of first-year students, commemorating the **birth anniversary of the eminent mathematician Sri Srinivasa Ramanujan**. The event was conducted with the objective of highlighting the importance of mathematics in engineering education, innovation, and everyday life.

The programme was graced by the presence of **Dr. Ram Kommagiri, Dean – Academics, Dr. D. Pradeep Kumar, Registrar, and Dr. P. Ramesh Reddy, Head, Department of Mathematics**. All the faculty members of the Department of Mathematics attended the programme and actively contributed to the successful conduct of the event.

The celebration commenced with an introduction to the significance of National Mathematics Day and its relevance to engineering students. **Dr. P. Ramesh Reddy, HoD**, addressed the gathering and emphasized the critical role of mathematics as a foundation for all engineering disciplines. He elaborated on the life, achievements, and inspirational journey of Srinivasa Ramanujan, motivating students to develop curiosity and passion for mathematical thinking.

**Dr. Ram Kommagiri, Dean – Academics**, delivered an insightful address explaining the *magic of numbers* and their applications in modern technology, research, and innovation. He highlighted the future scope for engineers with strong mathematical skills and encouraged students to strengthen their analytical and logical abilities.

**Dr. D. Pradeep Kumar, Registrar**, addressed the students on the *power of mathematics in solving day-to-day life problems*. He emphasized how mathematical reasoning supports effective decision-making, problem-solving, and technological advancements, and motivated students to appreciate mathematics beyond textbooks and examinations.

As part of the celebrations, the department organized various student-centric competitions to encourage creativity and participation. The events included Essay Writing on the Importance of Mathematics, PowerPoint Presentations highlighting the role of mathematics in engineering and real-life applications, and Sketch/Drawing of Srinivasa Ramanujan. The competitions witnessed enthusiastic participation from students, reflecting their interest and understanding of mathematical concepts.

Prizes and certificates were distributed to the winners of all competitions in recognition of their performance and efforts. The prize distribution ceremony served as a motivation for students to actively participate in academic and co-curricular activities.

The Mathematics Day Celebrations were conducted successfully and achieved their intended objectives of creating awareness about the importance of mathematics, inspiring students through the legacy of Ramanujan, and promoting analytical and creative thinking.

The Department of Mathematics expresses its sincere gratitude to the **Honourable Chancellor, Pro- Chancellor, Vice-Chancellor, and Registrar** for their continuous support and encouragement. The department also appreciates the cooperation of all faculty members and student volunteers who contributed to the smooth conduct of the programme.

# Ramanujan Jayanti Celebrations Held at MITS Deemed to be University

**Madanapalle (TTM NEWS):** The Department of Mathematics at MITS Deemed to be University, located near Angallu, celebrated the birth anniversary of legendary mathematician Srinivasa Ramanujan with great

enthusiasm. University Registrar Dr. D. Pradeep Kumar, Dean-Academics Dr. Rama K. Komaragiri, and Head of the Mathematics Department Dr. P. Ramesh Reddy paid floral tributes to the portrait of Srinivasa Ramanujan.

Addressing the gathering, Dr. D. Pradeep Kumar said that the contributions of Srinivasa Ramanujan to the field of mathematics are unforgettable. He emphasized that Ramanujan, who earned global recognition as the "Father of Mathematics," should serve as an inspiration for everyone. He stated that mathematics is the foundation of science and technology and has significantly contributed to the progress of human civilization. He further noted that many modern concepts, including numerology, are rooted in mathematics, and this distinction belongs largely to Srinivasa Ramanujan. He mentioned that Ramanujan's birth anniversary on December 22 is celebrated nationwide as National Math-

ematics Day. Dr. Pradeep Kumar also highlighted the invaluable contributions of eminent Indian mathematicians such as Aryabhata, Mahavira, Brahmagupta, Bhaskara II, and Srinivasa Ramanujan. He said that Ramanujan demonstrated extraordinary mathematical talent at a very young age and remains immortalized in history as a "Maths Genius." He also referred to the biographical film "The Man Who Knew Infinity", which was based on Ramanujan's life. He urged students to develop a strong foundation in mathematics. On this occasion, prizes were distributed to students who excelled in various competitions organized as part of the celebrations. Faculty members and students participated actively in the event.
