A **Parent Teacher Meeting** plays a crucial role in enhancing a student's career. It is improved academic performance of students. PTMs help identify areas where students need improvement, and teachers can provide guidance on how to address these areas. When parents and teachers work together, students are more likely to feel motivated and supported in their academic endeavours. And PTMs help students set realistic goals and develop strategies to achieve them. PTMs encourage parents to take an active role in their child's education, which can lead to better academic outcomes in addition, PTMs provide an opportunity for parents to learn about institution policies, procedures, and expectations.

PTMs help teachers understand the individual needs and challenges of their students, which facilitates open communication between teachers and parents, which can lead to better collaboration and support for students. PTMs can increase parental support for teachers, which can lead to a more positive and productive learning environment.
