16.08.2019

Submitted by : Dr. K. Vijay Kumar, Assistant Professor, Department of M.C.A.

Attended: MCA Students (Total 100 Students)
Venue: MBA/MCA Seminar Hall (South Block).

Resource Person: Mr. Madhu & Mr. Irfan , DEV ADVISOR NTT DATA - Bangalore & Alumni of MITS

The guest lecture was started with a short introductory talk by Dr. V. L Pavani. She emphasized the importance of basic programming skills. The lecture started at 2 p.m. where the resource person**s Mr. Madhu and Mr. Irfan addressed** the significant programming languages and list of tools are used in the industry. He created awareness of the said different domain knowledge and also explained the huge requirement of skilled personnel in future.

The following are the key points:

1. Importance of SharePoint and tools.
2. Website creating using HTML and CSS.
3. Importance of   Angular JS.
4. Tips on question asked in interviews.

All the students were very happy as they learnt the importance of Share-point and list of tools. The importance of Angular JS in industry was highlighted. The students also learnt how to create and design website by using Sharepoint. Some tips on questions that can be asked in interviews were also given. He also gave an insight into the various job opportunities.
Finally, the session was concluded with a vote of thanks by Dr C. Vijay Kumar. The resource person was felicitated by Dr P Ramesh Reddy, Alumni Relations Officer, MCA HOD and Department faculty.
