Purpose: Industry Interaction for Internships, MoU Collaboration, Industrial Visits, and Placement Opportunities
Location: Bengaluru, Karnataka
Companies Visited by: Dr. Thangavel Saravanan, AP/MCA & Dr. Saravanan Thirunavukkarasu, AP/MCA.
Report Received on 26.03.2026.
Mode of Conduct: Offline

The Department of Computer Applications (MCA), MITS continues its efforts to strengthen industry interaction and create better career opportunities for students. As part of this initiative, an industry visit was carried out on **18th March 2026** to Bengaluru. The visit aimed to explore opportunities for **internships, placements, and industry collaboration**, while also understanding the expectations of companies from MCA graduates.

Objectives of the Visit

The industry visit was conducted with the following objectives:

- To establish industry connections with IT companies
- To explore internship opportunities for MCA students
- To discuss placement opportunities for final year students
-

Companies Visited

During the visit, interactions were held with representatives of the following companies:

1. **Zidio Development**, Cinnabar Hills, Embassy Golf Links, Domlur, Bengaluru
2. **Quantawave Cyber R&D Lab**, RR Nagar, Bengaluru

Company-wise Interaction Details

1. Zidio Development – Domlur

A detailed interaction was held with Mr.Mano and his representatives of Zidio Development. The discussion focused on understanding the company's working domains, project environment, and expectations from fresh graduates.
The organization showed interest in connecting with academic institutions and was open to exploring opportunities related to internships, student engagement, and technical exposure. The interaction helped in identifying potential areas where students can be trained to meet industry standards.

2. Quantawave Cyber R&D Lab – RR Nagar

The visit to Quantawave Cyber R&D Lab provided insights into specialized domains related to cyber security research and development. Discussions were held regarding emerging trends in cyber security and the growing demand for skilled professionals in this area.
The organization showed interest in academic interaction and discussions were oriented towards skill development, student awareness, and possible opportunities in cyber security domain.

Outcomes of the Visit

The visit resulted in several positive outcomes for the Department of MCA:

Industry Exposure - Gained insights into current industry trends and expectations, particularly in software development and cyber security domains.

Skill Awareness - Identified the importance of domain-specific skills, especially in emerging areas like cyber security.

Opportunities for Collaboration – Opened possibilities for internships, student engagement, and future placement opportunities.

Conclusion

The industry visit to Bengaluru on **18th March 2026** was productive and provided valuable exposure to industry practices and expectations. The interaction with organizations helped in identifying potential collaboration opportunities and understanding the competencies required for MCA students to succeed in the professional environment.

The Department of Computer Applications, MITS will continue to strengthen such industry interactions to enhance student employability and bridge the gap between academia and industry.

Acknowledgement

The Department of Computer Applications expresses its sincere gratitude to the **Honourable Vice Chancellor, Registrar,** and **Principal of MITS** for their approval and encouragement in facilitating this industry visit. Special thanks are extended to **Dr. N. Naveen Kumar, Professor and Head,** Department of Computer Applications, for his constant guidance and support in transforming this initiative into a successful reality.
