

Innovative teaching and learning practices in the academic year 2023-2024 enhance student engagement and outcomes. Some of the key initiatives include learning management systems to provide hands-on and flexible learning experiences, Project-based learning (PBL), gamification techniques (Quiz, Interactive-based technology learning), and peer tutoring have fostered collaboration and critical thinking. Faculty also organized industry-expert workshops, and research-based projects to bridge the gap between academic and industry needs. These efforts have enriched the academic experience and prepared students for future challenges.

Innovative Teaching Learning Process (2023 – 2024)
