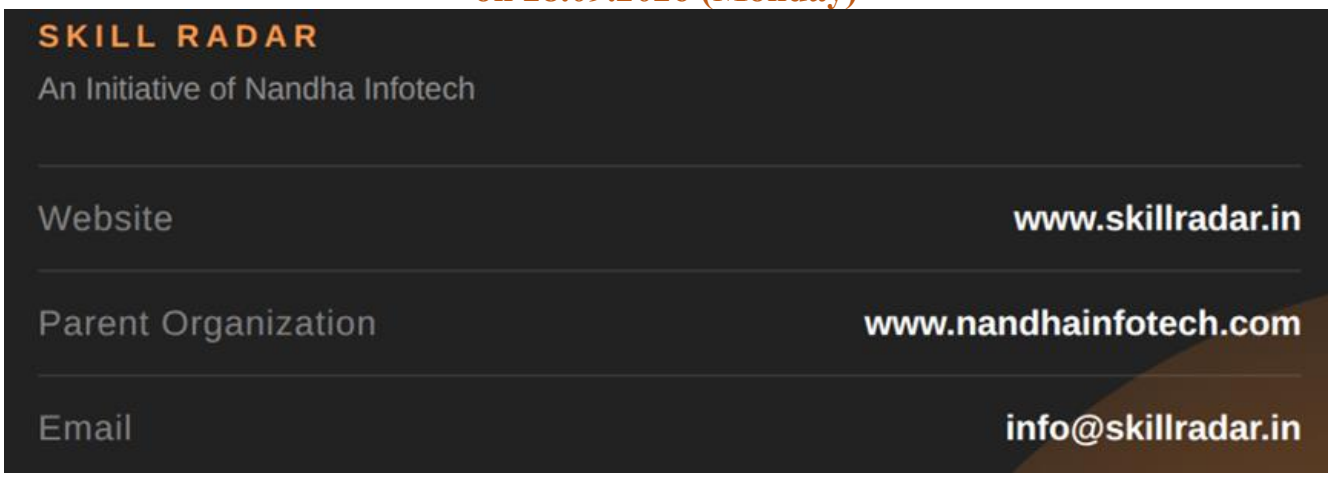
A Report on Industry-Institute Interaction Visit to "M/s. Nandha Infotech (P) Ltd, Coimbatore" Organized by Department of Computer Applications on 28.09.2026 (Monday)



Report Submitted by: Dr. B. Nagarajan, Associate Professor, Computer Applications
Purpose: Industry Interaction for Internships, MoU Collaboration, Industrial Visits, and Training Opportunities
Mode of Conduct: Offline
Report Received on 01.10.2026

The Department of Computer Applications, MITS Deemed to be University, is actively undertaking initiatives to enhance industry–academia collaboration and provide students with meaningful opportunities for professional exposure and skill development. As part of these efforts, an **Industry Outreach Visit was organized to M/s. Nandha Infotech (P) Ltd, Coimbatore, on 28.09.2026 (Monday)**. The visit focused on exploring avenues for establishing a mutually beneficial Memorandum of Understanding (MoU) and initiating collaborative activities in areas such as student internships, workshops, industry-oriented training programmes, live projects, and placement support. The interaction also provided an opportunity to identify potential areas of cooperation that could contribute to enhancing students' technical competencies, industry readiness, and career prospects while fostering a sustainable relationship between the institution and the software industry.

Company Profile: Skill Radar (An Initiative of Nandha Infotech)

Skill Radar is India's AI Readiness and Future Workforce Development Initiative, established by Nandha Infotech, a technology and innovation company specializing in Artificial Intelligence, software and product engineering, and digital transformation. It bridges the gap between academia and industry through experiential learning and institutional partnerships, helping build AI-ready campuses, industry-ready graduates, and future-ready educators. Its focus spans Generative AI, intelligent automation, faculty development, and entrepreneurship. To date, Skill Radar has reached over 120,000 learners and established more than 40 institutional collaborations.

Objectives of the Visit:

The visit was undertaken as part of the Industry–Institute Interaction initiative with the primary objective of exploring the establishment of a Memorandum of Understanding (MoU) between the Department of Computer Applications of MITS Deemed to be University, and M/s. Nandha Infotech (P) Ltd, Coimbatore.

The specific objectives of the visit:

- To initiate and strengthen industry–academia collaboration.
- To explore opportunities for student internships, industrial training, and industry-oriented projects.
- To explore placement opportunities, career guidance, and placement preparation support for students.
- To identify potential areas for faculty engagement, skill development, training, and knowledge sharing.
- To explore other mutually beneficial areas of collaboration that contribute to the academic, professional, and employability development of students.

Interaction and Discussion

During the visit, we had a fruitful interaction with **Mr. T. Vigneshwaran, Founder & CEO, Nandha Infotech and SkillRadar, TEDx Speaker, DeepTech Innovator and Startup Mentor**, regarding potential industry–academia collaboration between MITS Deemed to be University and M/s. Nandha Infotech (P) Ltd, Coimbatore.

The discussion covered the following areas:

Internships and Industry Projects
The possibility of providing structured internships, live projects, and industry-oriented learning opportunities for students was discussed. The interaction highlighted opportunities for students to gain practical exposure in Artificial Intelligence, Generative AI, Agentic AI, Data Science, Full Stack Development, IoT, and AI Automation.

Workshops and Training Programmes
The possibility of conducting workshops, expert sessions, and hands-on training programmes on emerging technologies such as AI, Machine Learning, Generative AI, LLMs, Prompt Engineering, Agentic AI, Data Analytics, and modern application development was discussed.

Faculty Development and Knowledge Sharing
Opportunities for Faculty Development Programmes (FDPs), expert talks, and knowledge-sharing sessions were discussed, particularly in the areas of AI, Generative AI, Agentic AI, Data Science, IoT, AI Automation, and Full Stack Engineering.

Research and Innovation Collaboration
The discussion also explored potential collaboration in applied AI research, product innovation, technology projects, publications, and prototype development, with emphasis on emerging and industry-relevant technologies.

Outcomes of the Visit:
The Industry–Institute Interaction Visit to M/s. Nandha Infotech (P) Ltd, Coimbatore, by the Department of Computer Applications, MITS Deemed to be University, on 28.09.2026 (Monday) resulted in a positive discussion on potential collaboration. The proposed outcomes include:

- Internships and industry-oriented projects for MCA students.
- Workshops, expert sessions, and training programmes on emerging technologies.
- Faculty Development Programmes (FDPs) and Value-Added Courses.
- Research collaboration and project development.
- Enhanced industry exposure, technical skills, employability, and career opportunities for students.
- Strengthened long-term industry–academia collaboration.

Conclusion
The Industry–Institute Interaction Visit to M/s. Nandha Infotech (P) Ltd, Coimbatore, held on 28.09.2026 (Monday), was productive and beneficial. The interaction provided an opportunity to explore potential collaboration between the Department of Computer Applications, MITS Deemed to be University, and the organization.

Acknowledgement
We express our sincere gratitude to the **Honourable Chancellor, Vice Chancellor, Registrar, Principal, Vice Principal** of MITS for their approval and encouragement in facilitating the industry visit. Special thanks are extended to **Dr. N. Naveen Kumar, Professor & Head, Department of Computer Applications**, for his constant guidance and support in making this initiative successful.
