

MADANAPALLE INSTITUTE OF TECHNOLOGY & SCIENCE

(UGC-AUTONOMOUS INSTITUTION)

www.mits.ac.in

Affiliated to JNTUA, Ananthapuramu & Approved by AICTE, New Delhi
NAAC Accredited with A+ Grade, NIRF India Rankings 2021 - Band: 201-250 (Engg.)
NBA Accredited - B.Tech. (CIVIL, CSE, ECE, EEE, MECH), MBA & MCA

On Report

Guest Lecture on “Traffic Flow Models for Urban Roads Under Indian Traffic Condition”

&

“Wastewater Source and Their Characteristics Impacts on Environment and Sustainable Treatment Approach”

Organized on
16th November 2023

Submitted by: Mr. B. Veeresh, Assistant Professor, Department of Civil Engineering, Madanapalle Institute of Technology & Science

MADANAPALLE INSTITUTE OF TECHNOLOGY & SCIENCE

UGC - AUTONOMOUS INSTITUTION

ESTD : 1998

Organized by Builders Club Under

ASCE MITS STUDENT CHAPTER
DEPARTMENT OF CIVIL ENGINEERING

Guest Lecture on

"Traffic Flow Models For Urban Roads Under Indian Traffic Condition"
&
"Waste Water Source and Their Characteristics Impacts On Environment and Sustainable Treatment Approach"

Dr. Narasamma Nippatlapalli
Asst. Professor,
Civil and Environmental Engineering Department
IIT-Tirupati

Date
16/11/2023
Time
2:00PM to 4:00PM
Seminar Hall - B

Dr. Gowri Asaithambi
Associate Professor,
Civil and Environmental Engineering Department
IIT-Tirupati

Chief Patron Dr. N. Vijaya Bhaskar Choudary Secretary & Correspondent	Patron Mrs. N. Keerthi Executive Director	Co-Patron Dr. C. Yuvaraj Principal	
Chief Co-Ordinator Dr. Dipankar Roy HOD, Civil Engineering Department	Faculty Co-Ordinator Dr. Priyam Nath Bhowmik Asst. Professor, Civil Engineering Department	Event Co-Ordinator Mr. B. Veeresh Asst. Professor, Civil Engineering Department	Student Co-Ordinator N. Varshini

Organized by: Builders Club under ASCE MITS Student Chapter, Department of Civil Engineering.

Dignitaries present:

Dr. P. Ramanathan, Vice Principal, Madanapalle Institute of Technology and Science, Madanapalle

Dr. Dipankar Roy, Professor & Head, Department of Civil Engineering & ASCE Faculty Advisor, Madanapalle Institute of Technology & Science, Madanapalle

Dr. Priyam Nath Bhowmik, Faculty Coordinator, Civil Department, Madanapalle Institute of Technology & Science, Madanapalle

Mr. B. Veeresh, Event Coordinator, Civil Department, Madanapalle Institute of Technology & Science, Madanapalle

Resource Persons:

Dr. Narasamma Nippatlapalli, currently working as an Assistant Professor in the Department of “**Civil and Environmental Engineering**” (Environmental Engineering division) at **Indian Institute of Technology Tirupati**. Before joining IIT Tirupati, she was an Assistant Professor at the Indian Institute of Technology Dharwad in the Department of Civil and Infrastructure Engineering. She conducted her MTech thesis work at the Hyderabad Metropolitan Water Supply and Sewerage Board (HMWSSB) on the Characterization of Municipal Wastewater and Biogas quantification. Dr. Nippatlapalli completed her PhD at IIT Madras. Her research mainly focused on the design of reactors, and degradation of emerging contaminants, per/polyfluorinated (PFAS) compounds, and textile wastewater, pharmaceutical wastewater. She was a postdoctoral fellow at Florida State University (FSU) in the USA.

Awards received

- Institute Best Research Award 2021, IIT Madras
- Bhagya Lakshmi and Krishna Iyengar Award 2021, Best PhD Research in 64th Convocation, IIT Madras, 2021.
- AWSAR Award from the Government of India for proposing a complete solution for “Colored textile wastewater treatment”
- Women Leading IIT Madras, Promising Young Researcher Award, IIT Madras, 202

2) **Dr. Gowri Asaithambi**, is currently working as an Associate Professor in the Department of Civil and Environmental Engineering at IIT Tirupati .She received her PhD from IIT Madras in 2011.Her main research interests are traffic flow modeling and simulation, traffic operations and management and intelligent transportation systems. She ha published more than 75 research papers in international/national journals and conference proceedings. She serves in various editorial boards and has been involved in four sponsored research projects.

Objective of the course

This Session is focused on Traffic Flow Models For Urban Roads under Indian Traffic Condition, Homogenous Traffic, Mixed/Heterogeneous Traffic (Indian Traffic), Traffic Flow Models, Simulation Technique and different types Simulation Technique, Development of a Simulation Model for Urban Arterial Road, and Development of a Simulation Model for Signalized Intersections, Direction for Future Work

Waste Water Source and Their Characteristics Impact on Environmental and Sustainable Treatment Approach. Wastewater sources and differences in characteristics, Emerging Contaminants, Impact on Environment, Conventional Treatments Technologies.

Program details

All the participants were gathered in the seminar hall at 2:00 PM . The inaugural session of this program was honored by The Vice- Principal, Dr. P. Ramanathan Garu. The head of the department (Civil) and The ASCE Faculty Advisor, Dr. Dipankar Roy sir and the faculty Coordinator, Dr. Priyam Nath Bhowmik &

Mr. B.Veeresh sir addressed the Resource person with warm welcome. Dr. Dipankar Roy addressed the students regarding the Traffic Condition & Waste Water source impact on Environmental and Sustainable Approach.

The session was handed over to the guest Dr. Narasamma Nippatlapalli with the beginning of the highlights the waste water sources, Discussed about different waster water source and per Capita water Demand India, and shown central Pollution Board Report,2021, She discussed about Emerging Contaminants and its sources and she tell our Responsibility to save the water, Finally she shown her research area and discussed about industrial wastewater treatment using Electrochemical advanced oxidation and hybrid treatment techniques.

After his lecture the students were given time to interact with him. Students felt that the session was more informative and interactive. And handed over the session to Gowri Asaithambi.

Gowri Asaithambi Started the session about traffic flow Models for Urban Roads Under Indian Traffic Condition, with the overview of the presentation, discussed about homogeneous traffic small proportion of heavy vehicles and follows lane discipline, and she discussed about simulation technique, Simulation models are mathematical or logical representation of real-world system, and advantages of simulation technique and she discussed Direction for future research.

After his lecture the students were given time to interact with him. Students felt that the session was more informative and interactive. At the end of the guest lecture, few students gave their feedback and explained how they were benefit.
