RESEARCH TALK

Topic:

Application of Nanomaterials in Flexible Pavement

4 PM

26 November 2024

Seminar Hall A

Dr. Priyam Nath Bhowmik
Assitant Professor
Department of Civil Engineering

Organized By: Department of Civil Engineering in Collaboration with Research & Development Cell

Chief-Patron
Dr. N. Vijaya Bhaskar Choudary
Secretary & Correspondent

Patron
Mrs. N. Keerthi
Executive Director

Co-Patron
Dr. C. Yuvaraj
Principal

Chief Co-ordinator
Dr. Dipankar Roy
HOD of Civil & ASCE Faculty Advisor

Faculty Coordinator
Dr. Nakkeeran G
Asst. Professor, CIVIL

Student Coordinator
A. Vyshnavi
M, ASCE, IV Year CIVIL

Submitted by: Dr. Nakkeeran G (Faculty Advisor), Assistant Professor in the Department of Civil Engineering, Madanapalle Institute of Technology & Science (MITS).

Objective Of the Program: The primary goal of the event was to stimulate curiosity about new technologies and trends as well as to encourage towards research. The session's main audience consisted of undergraduate engineering students and faculty members. The students found the session to be very beneficial in terms of gaining fresh ideas for study on new subjects. Young brains have been curious about conducting research as a result of the faculty and student's exposure to novel concepts.

Event Details:

The Department of Civil Engineering in collaboration with the Research & Development Cell has Organized a “RESEARCH TALK” on 26 November 2024 from 4:00 PM to 5:00 PM in seminar Hall D. The session was started by A. Vyshnavi, a 4th-year B-Tech student in Civil Engineering, with her anchoring.

The session was continued with a presentation from the faculty from the Dept. of Civil Engineering . The Research talk was on “Application of Nanomaterials in Flexible Pavement” by Dr. Priyam Nath Bhowmik(Asst. professor), Civil Engineering Department.. The number of attendees who attended this session was 65 members.

After completion of presentation, a student from the session delivers vote of thanks, followed by student co-ordinator from students end. We are extremely thankful to MITS institution and management, Principal MITS, for their continuous support to make this event a sparkling successful one.

Outcomes of the event:

- The shared research can contribute to the broader scientific community and lead to new discoveries or innovations.
- The talk may inspire students or young researchers to pursue similar research areas.
- Craft a compelling narrative to connect with the audience on an emotional level and make the research relatable.

Feedback on- Research Talk-5 on Application of Nanomaterials in Flexible pavement

Feedback Analysis

Timely execution and delivery of event

Quality of lecture delivery

Quality of presentation and Contents

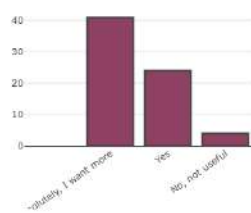

Did the event meet your expectation

Does it inspire you to explore further opportunities

Do you want similar events in future

Overall organisation and coordination of event

Overall learning
