Report on
Guest Lecture on Sustainability in Road Infrastructure & Career Opportunities in
Transportation Engineering
Organized by Dept. of Civil - MITS
17 September 2016

Submitted by: Mr. D. Sita Rami Reddy, Assistant Professor, Dept. of Civil Engineering.

Guest Speaker: Dr. M. Amaranatha Reddy, Associate Professor, Civil Engineering Department, IIT Kharagpur

Attended: Total 95 Civil Engineering students are benefited from this guest lecture

The session was started at 10.30am. Mr. D. Sita Rami Reddy, presented a brief introduction of the resource person to audience. Dr. M. Amaranatha Reddy, resource person of the program, explained various specializations and recent advances in Civil Engineering in terms of tall buildings, air port construction, and dam construction. He emphasized on various learning procedures in present education through open courses, online books/research articles, distance education and certificate courses, learning by doing and problem solving concepts, and practical courses through internship programmers at CSIR labs, IITs, NITs, consultancy firms, construction industry. He focused on availability of various opportunities for Civil Engineering graduates in engineering service examination, central government organizations, state PWDs, research institutes, consultancy firms, construction industries, higher education in India and abroad and temporary positions as research assistant in IITs/NITs/other institutions. He also stressed on the importance of communication skills, IT exposure and domain knowledge for success.

Prof Reddy spoke about natural resource consumption, money investment, energy consumptions utilized in the construction of infrastructure projects and highlighted the necessity of application of sustainable approach in infrastructure projects. Prof Reddy made a presentation on the application of sustainability in road infrastructure through the usage of locally available materials, waste materials, use of efficient construction practices, use of reclaimed asphalt pavement material, recycled concrete aggregate, application of innovative pavement design methods and maintenance strategies. Vote of thanks was proposed by Dr. M. Chittaranjan, Professor, Civil Engineering department.
