Valedictory Function:

Valedictory function started at 3.30 PM with Dr. R Kalpana, Vice Principal-PG, Students from different colleges shared their experience about EPICS-2K24 followed by Prize Distribution for winners and runners. The function was finally ended by thanking the management, Principal, HoD, Faculties, Non-teaching staff and all student coordinators who worked for this event to make this event a grand success.

Program Outcome:

Symposiums often feature presentations by industry experts, faculty, and even students on the latest Cyber security threats, tools, and techniques. This exposure can significantly improve students' understanding of the field and equip them with valuable skills. These events allow students to showcase their research, test their skills in a competitive environment, and gain valuable feedback from experts. By learning about the challenges and importance of Cyber security, students might be motivated to pursue careers in this critical domain.

The technical symposium proved to be a resounding success, fulfilling its objective of fostering innovation, collaboration, and technical excellence among students and participants. The event served as a platform for students to showcase their skills, exchange ideas, and gain exposure to the latest trends and technologies in the field.
