Report Received on 08.10.2026.

A Guest Lecture on “From College to Corporate: Bridging the Gap Between Academia and Industry” was organized by the Department of Computer Science & Engineering (Data Science) for III B. Tech students.

The Guest Lecture was started at 10:00 A.M in Seminar Hall -B, the dignitaries were Dr. S. Kusuma, HoD – CSE, B. Jagan Mohan Reddy, Working as Associate software Engineer in Accenture-Bangalore, Dr. Gutti Nagaswetha, Alumni Relation Officer, Mr. G. Kiran Kumar, Department Alumni Coordinator.

The lecture was started with opening remarks by, Dr. S. Kusuma who thanked Management for this great initiation of creating an opportunity to invite the Alumni members of the institute and enabling them to interact with the students and enlightening them with the current developments in the corporate world. Dr. Gutti Nagaswetha has shown pleasure and promised to conduct many more lectures in future for the benefit of the students.

Mrs. G. Kiran Kumar introduced the speaker and invited him to share his valuable experiences to the students. The number of students participated in the lecture were around 140.

Highlights of the Session

1. Understanding the Transition from College to Corporate

- The resource person explained the transition from academic life to the professional corporate environment and the challenges commonly faced by fresh graduates.
- He highlighted the importance of adapting to professional work culture, responsibilities, teamwork, and continuous learning.

2. Understanding Industry Expectations

- The speaker discussed the expectations of IT and corporate organizations from fresh graduates, with emphasis on technical knowledge, practical exposure, and problem-solving ability
- Students were advised to understand industry requirements and develop relevant skills alongside their academic curriculum.

3. Importance of Technical Skills

- Emphasis was given to strengthening programming fundamentals, core computer science concepts, and technical skills required for building a successful career in the IT industry.
- The resource person encouraged students to gain practical knowledge through coding practice, projects, internships, and hands-on learning.

4. Career Preparation and Interview Strategies

- The session provided valuable guidance on preparing for technical interviews, aptitude tests, coding assessments, and HR interview rounds
- Students were advised to prepare systematically, practice regularly, and develop confidence while attending placement and recruitment processes.

5. Resume Building and Project Development

- The speaker highlighted the importance of preparing an industry-oriented resume that effectively showcases technical skills, academic achievements, projects, internships, and certifications.
- Students were encouraged to work on practical and real-world projects to demonstrate their ability to apply classroom knowledge to industry-related problems.

6. Professional and Soft Skills

- The resource person emphasized the importance of communication skills, teamwork, time management, adaptability, and professional behaviour in the corporate environment.
- Students were encouraged to improve their confidence, presentation skills, and ability to communicate technical ideas clearly

7. Real-Time Industry Experience and Career Guidance

- The alumni speaker shared his personal career journey and practical experiences from the corporate industry, providing students with a realistic understanding of professional life.
- Valuable guidance was given on career planning, continuous skill development, adapting to emerging technologies, and successfully building a career in the IT industry.

Interaction and Q&A Session

The session concluded with an interactive Q&A, where the resource person addressed students' queries related to interview preparation, career planning, skill development, and industry expectations. Students actively participated and gained clarity on multiple aspects of placement preparation.

The program was completed successfully, and the session concluded as scheduled.

Conclusion:

The alumni guest lecture provided valuable insights into interview preparation for product-based companies and industry expectations. The session effectively enhanced students' technical awareness, confidence, and career readiness, fulfilling the objective of bridging academia and industry.

Newspaper Clips:

The outcome of the programme:

The outcomes of the alumni guest lecture include:

- Enhanced understanding of interview processes in product-based companies
- Improved awareness of essential technical and coding skills
- Practical guidance on resume building and project selection
- Motivation to follow a disciplined and structured preparation plan
- Increased confidence in facing technical and HR interviews

The session is completed at 12:00 P.M, and he clarified the queries of enthusiastic young minds with a great zeal during the interaction time.

Vote of Thanks:

Mr. G. Kiran Kumar proposed a vote of thanks to the Resource person, HOD and Alumni Relations Officer for attending the function. He extended his thanks to the principal, and the Management for their support to conduct the training.
