A Report on
"Induction Program on Physical Security & Cyber Security for B. Tech II Year students"
Organized by Department of Computer Science and Engineering (Cyber Security) on 17.07.2026

Report submitted by: Mr. M. Mutharasu & Mrs. M. Fathima Begum, Assistant Professor, Department of CSE-Cyber Security.
Resource Person Details: Mr. Hameed Unis, Country Manager, Faith Walker Security India Pvt, Bangalore.
Attendance: 69 participants
Mode of Conduct: Offline
Report Received on 08.08.2026.

Objectives of the Program:

The primary objective of the induction program was to familiarize second-year B. Tech (Cyber Security) students with the importance of cybersecurity, professional ethics, and industry expectations in the rapidly evolving digital world. The program aimed to bridge the gap between academic learning and industry practices by providing students with insights into current cyber threats, physical security systems, risk management strategies, and the skills required to build successful careers in the cybersecurity domain. It also encouraged students to develop professional values, continuous learning habits, teamwork, and problem-solving abilities essential for future cybersecurity professionals.

Inaugural Session:

The Induction Program commenced with a warm welcome by **Dr. Brahm Prakash, Head of the Department of CSE (Cyber Security)**. In his inaugural address, he welcomed the distinguished dignitaries, resource person, faculty members, and students. He highlighted the importance of the induction program in familiarizing second-year students with the academic environment, departmental activities, and industry expectations.

He also expressed his sincere gratitude to the Management, Hon'ble Vice-Chancellor, Registrar, Principal, Dean of the School of Computing, and faculty members for their continuous encouragement and support in organizing the program successfully. Following this, **Dr. Chandra Prakash Gupta, Dean – School of Computing**, addressed the students and emphasized the growing significance of cybersecurity in today's technology-driven world. He encouraged students to develop strong technical skills, stay updated with emerging cyber technologies, and actively participate in workshops, certifications, and industry-oriented activities to enhance their employability. **Dr. Ramanathan, Principal**, motivated the students to make the best use of the opportunities provided by the institution and focus on academic excellence, innovation, discipline, and ethical values.

He advised the students to cultivate a habit of continuous learning, strengthen their problem-solving abilities, and prepare themselves to meet the challenges of the rapidly evolving cybersecurity industry. His inspiring address encouraged the students to pursue their academic journey with confidence, dedication, and a commitment to lifelong learning. The resource person, Mr. Hameed Unis, commenced the session by expressing his sincere gratitude to the participants, the organizing members, and the Management of MITS, Madanapalle, for providing him with this opportunity.

Key Highlights

- The speaker shared valuable insights into the current cybersecurity landscape, emphasizing the increasing importance of information security, physical security, and risk management in modern organizations.
- Students were introduced to industry expectations, career opportunities, professional certifications, and the technical and interpersonal skills required to succeed in the cybersecurity field.
- The session highlighted emerging trends such as integrated security solutions, security operations, surveillance technologies, incident response, and organizational security practices, providing students with a broader perspective on the security industry.
- The resource person motivated students to strengthen their technical knowledge, communication skills, ethical values, and lifelong learning mindset to remain competitive in the evolving technology landscape.
- An interactive question-and-answer session enabled students to clarify their queries regarding career paths, internships, higher education opportunities, and professional growth in cybersecurity.
- The program concluded with a vote of thanks, expressing gratitude to the resource person, management, faculty members, and students for making the induction program informative and inspiring.

Outcome of the Induction program:

At the end of the session, participants were able to:

- Gain a clear understanding of the objectives and academic expectations of the Department of CSE (Cyber Security).
- Understand the importance of cybersecurity and its growing role in protecting digital assets and critical infrastructure.
- Recognize the current industry trends, career opportunities, and skill requirements in the field of cybersecurity.
- Develop awareness of professional ethics, discipline, teamwork, and continuous learning required for a successful career.
- Understand the significance of emerging security technologies, risk management, and cyber threat mitigation.
- Enhance their motivation to participate in technical activities, internships, certifications, workshops, and research opportunities.
- Appreciate the importance of effective communication, problem-solving, and analytical skills in the cybersecurity profession.
- Feel inspired to pursue academic excellence and prepare themselves to meet future industry challenges with confidence and responsibility.

The session concluded with a vote of thanks presented by Coordinator Mr, M. Mutharasu Assistant Professor in the Department of CSE (Cyber Security) at Madanapalle Institute of Technology & Science (Deemed to be University), Madanapalle.
