Time: 10.30 AM to 12.00 PM
Attendance: 59 participants (Internal)
Mode of Conduct: Online
Report Received on 10.05.2024

The Department of Computer Science & Engineering (Cyber Security) in association with IIC, organized a webinar on the Topic “**Innovation & Technology**” for all our MITS students on National Technology Day - 10/05/2024 from 10.30 AM to 12.00 Noon in Scaleup Classroom. **Mr. P. Mohanavel**, Director, EV NEXUS Pvt Ltd & Founder, A R Green Mobility, Vellore, was the resource person for the programme.

The welcome address was given by **Mr. Gowtham A**, Assistant Professor, Department of CSE(CS), to the gatherings. **Dr. S.V.S. Ganga Devi**, Professor & Head, Department of CSE(CS) shared the importance of innovate thinking, purpose of technology and highlights of National Technology Day.

Potential highlights from a webinar on "Innovation & Technology":

- **Introduction to Innovation:** The webinar likely started with an overview of what innovation means in the context of technology, emphasizing its role in driving progress and solving challenges.
- **Emerging Technologies:** Discussion on the latest trends and advancements in technology, such as artificial intelligence, blockchain, Internet of Things (IoT), augmented reality (AR), and virtual reality (VR). This may have included case studies or examples of how these technologies are being applied in various industries.
- **Innovation Strategies:** Presenters might have shared insights into effective strategies for fostering innovation within organizations, including fostering a culture of creativity, encouraging risk-taking, and establishing collaborative environments.
- **Impact on Industries:** Exploring how innovation and technology are disrupting traditional industries and creating new opportunities. This could involve examining specific sectors like healthcare, finance, education, and manufacturing.
- **Ethical Considerations:** Delving into the ethical implications of technological advancements, such as privacy concerns, job displacement due to automation, and biases in algorithms. This part may have emphasized the importance of responsible innovation.
- **Collaboration and Partnerships:** Highlighting the significance of collaboration between different stakeholders, including startups, corporations, government agencies, and academia, in driving innovation forward.
- **Future Outlook:** Speculation on the future direction of innovation and technology, including potential breakthroughs and challenges that lie ahead. This might have involved predictions about the next big technologies or shifts in the innovation landscape.
- **Q&A Session:** The webinar likely concluded with a Q&A session where attendees had the opportunity to ask questions and engage with the speakers, further exploring topics of interest and gaining additional insights.

Program Outcomes:

Common outcomes of a webinar on "Innovation and Technology" typically include:

- **Increased Awareness:** Attendees gain a better understanding of the latest trends and advancements in technology and how they are driving innovation across various industries.
- **Inspiration:** Participants are inspired by success stories and case studies shared during the webinar, motivating them to explore innovative solutions in their own work or projects.
- **Knowledge Sharing:** The webinar serves as a platform for experts to share their insights and expertise, fostering knowledge exchange among attendees.
- **Networking Opportunities:** Attendees have the chance to connect with like-minded individuals, potential collaborators, and industry experts, expanding their professional network.
- **Ideation and Problem-Solving:** The discussion of innovative technologies and strategies may spark ideas for attendees to apply in their own organizations or projects, leading to creative problem-solving.
- **Strategic Insights:** Participants gain strategic insights into how they can leverage technology to stay competitive in their respective industries and adapt to changing market conditions.
- **Increased Collaboration:** The webinar fosters collaboration and partnerships among different stakeholders, encouraging cooperation in driving innovation forward.
- **Actionable Takeaways:** Attendees come away from the webinar with actionable insights and practical tips that they can implement in their own work or organizations.
- **Awareness of Ethical Considerations:** The discussion of ethical implications raises awareness among attendees about the importance of responsible innovation and the need to consider ethical considerations in technological development.
- **Future Preparedness:** By learning about emerging technologies and industry trends, participants are better equipped to anticipate future challenges and opportunities, allowing them to plan for future innovation initiatives.
