Report on

Virtual Guest Lecture on

Optimization Problems and Algorithms

26/03/2021

Submitted by: Dr. R. Rajakumar, Associate Professor/CST, MITS, Madanapalle

Resource Person: Dr. Seyed Mirjalili, Associate professor, Director Centre for AI Research and optimization, Torrens University Australia.

Department of Computer Science & Technology organized on day virtual Guest Lecture on 26/03/2021 titled "Optimization Problems and Algorithms" for academicians and students to gain knowledge on optimization problem and its different types of algorithms.

Attended: Participants from other institutions (Total Number: 139)

Mode: Microsoft Team

Abstract of Talk: Over the last two decades, nature-inspired stochastic optimisation techniques have been widely used to solve a variety of problems in both science and industry. Despite the popularity and impact of such methods, optimisation of real-world problems involves addressing a large number of difficulties such as local solutions, multiple objectives, constraints, expensive objective function, noisy objective function, dynamic search space, uncertainties, etc. In this talk, the state-of-the-art and recent advances in addressing such difficulties during optimisation has been presented.

The one-day virtual Guest Lecture was started at 10:30AM. The webinar was initiated by Dr. R. Rajakumar, Associate Professor, CST Department. The Resource person **Dr. Seyed Mirjalili** was introduced by Dr. M. Sreedevi, Professor & Head-CST Department.

The resource person addressed the gathering about the Optimization problems and algorithms – Overview

1. At the beginning of the presentation, the resource person discussed about the introduction to optimization, types of optimization problems and difference between uni-modal and multi-modal problems.

2. The Speaker has explained about the grey wolf optimization algorithm and its nature towards the various optimization problems.

3. The speaker suggested the some of the optimization problems and algorithms such as

- Grey wolf optimization
- Dragon-fly algorithm
- Machine Learning problems and so on.

MADANAPALLE INSTITUTE OF TECHNOLOGY & SCIENCE (UGC-AUTONOMOUS)

Affiliated to JNTUA, Anantapuramu & Approved by AICTE, New Delhi Recognised Research Center, Accredited by NBA, Recognised by UGC under the sections 2(f) and 12(B) of the UGC act 1956

Department of Computer Science & Technology

4. The speaker had explained about the current problems and solutions using optimization algorithms.

5. **Feedback:** The participants were moreover passionate to know about optimization problems and algorithms. The session was concluded followed by a vote of thanks which was given by Dr. R. Rajakumar, Associate Professor, CST.
