A Report on Workshop on "Indian Financial Markets: Structure, Instruments, Institutions and Opportunities" Organized by School of Management On 19.09.2026

Report Submitted by: Dr. E. Gnanaprasuna, Assistant Professor, School of Management.
Resource Person Details: Dr. J. Murthy, Securities Market Trainer.
Time: 11.00 am to 4.00 noon
Venue: Seminar Hall B
Total No. of Participants: 80
Mode of Conduct: Offline
Report Received on 05.10.2026

Objective of the Workshop:

The School of Management organised a workshop on **"Indian Financial Markets: Structure, Instruments, Institutions and Opportunities"** in association with **CDSL (Central Depository Services Limited)**.

The workshop aimed to provide students with a comprehensive understanding of the Indian financial market ecosystem, its structure, major financial instruments, key institutions, and emerging opportunities. The programme was designed to bridge the gap between **theoretical knowledge and practical exposure** by familiarising students with the functioning of financial markets and the role of market institutions.

The key aspects of the workshop were to:

1. Understand the structure and functioning of Indian financial markets, including the money market and capital market.
2. Familiarise students with various financial instruments such as equity shares, bonds, mutual funds, derivatives, and other investment products.
3. Explain the role and functions of key financial market institutions, including stock exchanges, depositories, regulatory bodies, and intermediaries.
4. Create awareness about the role of CDSL and the importance of depository services in the Indian securities market.
5. Develop practical awareness of investment and securities-market operations among management students.
6. Highlight career and professional opportunities available in the financial services and capital-market sectors.
7. Promote financial literacy and responsible investment awareness among students.
8. Enable students to relate classroom concepts in Finance and Investment Management to real-world financial-market practices.

Learning Outcomes

By the end of the workshop, the participants will be able to:

1. Explain the structure and functioning of Indian financial markets, including money markets and capital markets.
2. Identify and differentiate various financial instruments such as equity, bonds, mutual funds, derivatives, and other investment products.
3. Understand the roles and functions of key financial market institutions, including stock exchanges, depositories, intermediaries, and regulatory authorities.
4. Describe the role of CDSL (Central Depository Services Limited) in the securities market and understand the importance of dematerialisation and depository services.
5. Apply basic concepts of investment and securities-market operations to real-world financial scenarios.
6. Recognise investment opportunities and associated risks in different financial market instruments.
7. Develop financial-market awareness and informed investment decision-making skills.
8. Identify career and professional opportunities in the financial services, capital markets, and investment sectors.

Conclusion

The workshop on “Indian Financial Markets: Structure, Instruments, Institutions and Opportunities”, organised by the School of Management in association with CDSL (Central Depository Services Limited), provided participants with valuable insights into the functioning of the Indian financial market ecosystem. The programme effectively connected classroom concepts with practical aspects of securities markets, financial instruments, depository services, investment opportunities, and market operations.

The workshop enhanced students’ financial literacy, investment awareness, and understanding of capital-market practices. The interaction with the resource person and industry-oriented discussions helped participants gain practical perspectives on financial markets and explore potential career opportunities in the financial services sector.

Overall, the workshop served as a meaningful platform for knowledge enhancement, practical exposure, and professional development, contributing to the holistic learning of students in the field of Finance and Investment Management.

Feedback:

- Students have gained knowledge about stock market
- Various ideas gained from recent technologies used in trading mechanism.
- Students are motivated towards commercialization of their investment.

The lecture was then followed by a question & answer session. The session was concluded at 4:00 PM followed by a vote of thanks, given by Dr. E. Gnanaprasuna, Assistant Professor, School of Management, MITS Deemed to be University, Andhra Pradesh.
