A Report on **Parents Meeting** Organized by **Department of Mechanical Engineering** on **30-09-2026**

Report Submitted by: Dr. G. Veeresalingam, Assistant Professor/Department of Mechanical Engineering

Attended by: Parents and students of the mechanical engineering department

No of parents attended: 25

Mode of Conduct: Offline

Report Received on 03.10.2026.

The department of mechanical engineering organised the parents meeting on 30th Nov 2026 in KKB Seminar Hall Room Number-008 at 10 A.M

Objective of the Event:

The Parent-Teacher Meeting was organized to provide a platform for meaningful interaction between parents and faculty regarding students' academic progress, attendance, discipline, project activities, and overall development. The meeting aimed to strengthen communication and collaboration between parents and the department and to encourage parents to actively support their wards in achieving academic and professional success.

Program Details:

The event commenced by a welcome address by Dr. S. Baskaran, Head of the Department. He briefed the parents about the department's vision and Mission, academic activities, overall student performance, and various initiatives undertaken for skill development of students. He also emphasized the importance of regular attendance, discipline, active participation in academic activities, training programmes, and placement preparation.

Dr. Praveen Kumar B addressed the parents regarding the department's training and placement activities. He explained the various initiatives undertaken to improve students' employability skills, including technical training, aptitude preparation, soft-skills development, placement-oriented programmes, and industry-related activities. He also highlighted the importance of students' active participation in training programmes and continuous preparation for recruitment opportunities.

Dr. G. Veeresalingam interacted with the parents regarding student project activities and project topics. He explained the importance of selecting relevant and innovative project topics that provide students with practical knowledge and problem-solving skills. He encouraged students to undertake projects related to current technological developments, industry requirements, and real-world engineering problems. Parents were also encouraged to motivate their wards to actively participate in project work, internships, technical activities, and other opportunities that enhance practical exposure.

Dr. A. Pruthvi Deep and Dr. G. Veeresalingam interacted with the students and parents and explained the students' Mid-1 examination marks and attendance status. He discussed the academic performance of the students based on their Mid-1 results and highlighted the importance of maintaining regular attendance and consistent academic performance. Parents were informed about their wards' attendance and examination performance, and they were encouraged to monitor their academic progress regularly and provide necessary support and guidance for improvement.

A general parent-teacher interaction session was subsequently conducted, during which parents and faculty discussed students' academic performance, attendance, discipline, and participation in departmental activities. Parents shared their feedback and suggestions regarding the academic and overall development of their wards.

The event concluded with a vote of thanks by Dr. G. Veeresalingam, Event Coordinator. Overall, the Parent-Teacher Meeting provided a productive platform for interaction between parents and the department. The meeting strengthened the cooperation between parents and faculty and emphasized their shared responsibility in supporting students' academic progress, professional development, discipline, and overall success.
