

## List of Advanced Lab Equipment-Civil

Serial.	Equipment Name	Photo
1	Loading Frame (4-Legged, 50 T Capacity with accessories)	 A large, yellow, four-legged loading frame is shown in a laboratory setting. The frame is made of heavy-duty metal and has a central vertical column. A person in a white shirt and blue pants is standing next to the frame, providing a sense of scale. The background shows a window and some other lab equipment.
2	Servo Electric Shake Table (Size: 1 m x 1m, Pay load 200 Kg with accessories)	 A blue servo electric shake table is shown in a laboratory setting. The table is a large, flat, rectangular metal plate with a grid of holes on its surface. It is supported by a blue base and has a vertical column in the center. The background shows a window and some other lab equipment.

3	Advanced Microprocessor UV-VIS Single Beam Spectrophotometer MODEL NO. LI-295	
4	Standard Penetration Test Equipment	
5	Digital Ultrasonic Concrete Tester (UPV)	

6	Profometer (PM 630)	
7	Rebound Hammer	
8	Universal Testing Machine (UTM) Specifications: 1000 kN Capacity	
9	Core Cutter with Diesel Generator
