Introduction About Tech Club

In SAC-MITS, The Inauguration of Tech Club took place on dated: 06-01-2023. Dr. K. Dinesh, Associate professor, Department of CST , serves as the club's faculty counsellor. Y. Akhil Kumar Reddy from CST 3rd year B.Tech as the club's student coordinator.

In tech club, we make aware of the Trending Technical concepts as a group and make use of them against troubleshooting any technical aspects faced by oneself and by the organization by finding better solutions.

Creating a platform to share and enhance the common technical skills irrespective of departments and basics of core technical skills of each department.

For all-round development of the students and to enrich their technical knowledge the institute provides a platform for various student's activities. This club envisages a conducive platform to explore students' talents and also to enable them to come out with their innovative ideas. The focus of the tech club primarily is to help the students gain practical as well as theoretical technical knowledge. Students are provided with an opportunity to implement what they learnt in their respective class rooms.

The Tech club not only help the students explore their hidden talent but also help in areas such as personality development and inculcating in the students the spirit of conducting such events by providing them with a platform for hosting their technical talents.

Objective of mastering data science in 24 months

The main motto of our club is to get awareness among many new technical topics and make you people easy to learn them.
