Interview with Palamaner Kuppam Madanapalle Urban Development Authority (PKM-UDA)

18.01.2024 (Thursday)

Submitted by: Mr. E. Aravindraj, Asst. Professor, ECE, MITS

On 18/01/24, MITS Radio 90.8 had the pleasure of hosting representatives from the Palamaner Kuppam Madanapalle Urban Development Authority (PKM-UDA) for an enlightening interview. The PKM-UDA shared insights about urban planning to ensure equitable access to public services in the erstwhile Chittoor district of the Indian state of Andhra Pradesh.

Interview Highlights:

The PKM-UDA representatives discussed various aspects of urban planning aimed at ensuring equitable access to public services for all residents. They emphasized the importance of strategic city planning to enhance accessibility to essential services such as healthcare, education, transportation, and sanitation. They also highlighted the need for inclusive urban development policies that cater to the needs of marginalized communities and promote social equity.

During the interview, the PKM-UDA representatives also addressed the challenges faced in implementing equitable urban planning. They discussed issues such as rapid urbanization, inadequate infrastructure, and limited resources. They proposed solutions such as decentralized planning, community participation, and innovative financing mechanisms to address these challenges effectively.

Outcome:

The insights shared by the Palamaner Kuppam Madanapalle Urban Development Authority (PKM-UDA) shed light on the importance of urban planning in ensuring equitable access to public services. Their recommendations and strategies are expected to guide future urban development initiatives in the erstwhile Chittoor district. MITS Radio 90.8 is committed to promoting discussions on urban planning and sustainable development for the benefit of our listeners.
