

MADANAPALLE INSTITUTE OF TECHNOLOGY & SCIENCE

(UGC - AUTONOMOUS)

The Department of English & Foreign Languages owns a multi media lab and two Activity rooms, with the purpose of giving students the opportunity to improve their skills. The Multi media Lab equipped with 64 systems, an LCD screen and projector, deals with cloze tests, Error Correction, Reading Comprehension, listening and speaking activities etc. The Activity Rooms equipped with LCD Screen and projector as well as white boards, focus on the third year students, preparing them for Group Discussion, Oral Presentations, Resume writing and Mock Interviews.

The labs are brought into use on a daily basis. The faculty of English, besides dealing with the first year students also train the Second year students for Speaking and Listening as well as for BEC- Business English Certificate from the University of Cambridge, UK.

Young India Films' **CLARITY SNET LANGUAGE LAB** (1 Teacher+ 60 Students) **software** with English content namely **Clarity English Success** was purchased by MITS 2013. Later in 2017, the college purchased the Cambridge software that has a detailed and structured step by step learning, involving the students by using a highly pedagogical, interactive Multi-Media Content, allowing the students to learn at their own pace. It has inbuilt self-assessment/self-evaluation tools to measure the level of learning and progress.

Students are trained on Grammar, Reading, Listening, Writing, Speaking and Pronunciation. Soft skills and Personality Development program has Writing Emails, Resume Writing, Team Work, Group Discussion, Communication Skills, Time Management, Body Language, Public Speaking, Interview Skills, Telephone Etiquette, Attitude, Leadership, Presentation Skills and Interpersonal Skills.

Department of English & foreign Languages

Circular 8 /Eng/18

Date: 10TH June 2018

Dear HODs ,

For the academic year 2018-2019, the department of English & Foreign Languages is offering the English Course along with the practical component in the lab.

Venues: Multi Media Lab: South Block 202,
Activity Labs: SB 203, SB 204

The multimedia room and activity rooms are dedicated to cater to the needs of the I Year and II Year students . The two software 'Cambridge Pronunciation' and 'Clarity SNET' help the students to improve various aspects in English communication. The Activity Rooms are designed for group activities, oral presentations, etc.

So Kindly inform your students to use the labs in a productive way.

DEPARTMENT OF ENGLISH & FOREIGN LANGUAGES

Lab Utility Report (2018-19)

English Multimedia Laboratory (SB-202) Date: 24 July 2019

The Department of English & Foreign Languages, has a well equipped Multimedia laboratory consisting of 64 systems. The two software 'Cambridge Pronunciation' and 'Clarity SNET' are used to help teachers improve students' English communication in all the four skills: Listening, Speaking, Reading and Writing. These software include ample exercises, activities and tasks on the core linguistic components. A number of activities are also available for practicing Grammar, Vocabulary and Pronunciation. The priority is to give learners audio-visual input on the respective topics in their syllabus.

The department also has two Activity Rooms for learners where they are made to practice the theoretical concepts learnt in the theory classes. The Department of English & Foreign Languages follows the Activity based teaching methodology. The learners get involved in different individual/pair/group activities such as JAM, impromptu Speech, Essay Writing, Running Commentary, Group Discussion, Debate, Poster Presentation etc.

All the first B.Tech students as well as the second year students have benefitted from the English laboratory during the academic year and enhanced their capabilities by using the software.
