

# **MADANAPALLE INSTITUTE OF TECHNOLOGY & SCIENCE**

## **(UGC - AUTONOMOUS)**

**The Department of English & Foreign Languages** owns a multi media lab and two Activity rooms, with the purpose of giving students the opportunity to improve their skills. The Multi media Lab equipped with 64 systems, an LCD screen and projector, deals with cloze tests, Error Correction, Reading Comprehension, listening and speaking activities etc. The Activity Rooms equipped with LCD Screen and projector as well as white boards, focus on the third year students, preparing them for Group Discussion, Oral Presentations, Resume writing and Mock Interviews.

The labs are brought into use on a daily basis. The faculty of English, besides dealing with the first year students also train the Second year students for Speaking and Listening as well as for BEC- Business English Certificate from the University of Cambridge, UK.

Young India Films' **CLARITY SNET LANGUAGE LAB** (1 Teacher+ 60 Students) **software** with English content namely **Clarity English Success** was purchased by MITS 2013. Later in 2017, the college purchased the Cambridge software that has a detailed and structured step by step learning, involving the students by using a highly pedagogical, interactive Multi-Media Content, allowing the students to learn at their own pace. It has inbuilt self-assessment/self-evaluation tools to measure the level of learning and progress.

**Students are trained on** Grammar, Reading, Listening, Writing, Speaking and Pronunciation. Soft skills and Personality Development program has Writing Emails, Resume Writing, Team Work, Group Discussion, Communication Skills, Time Management, Body Language, Public Speaking, Interview Skills, Telephone Etiquette, Attitude, Leadership, Presentation Skills and Interpersonal Skills.

## Department of English & foreign Languages

Circular 5 /Eng/17

Date: 15<sup>th</sup> June 2017

Dear HODs,

For the academic year 2017-2018 the department of English & Foreign Languages is offering the English Course along with the lab.

Venues: Multi Media Lab: South Block 202, Circular Block Lab 6

Activity Labs: SB 203, SB 204

The multimedia lab was designed keeping in mind the variation in the syllabus for first years and second years. The lab was made available for both years to cater to their needs and syllabus. English grammar, listening, reading, writing, vocabulary building, and phonetics are taught in the multimedia lab. The Activity Rooms are designed for group activities, oral presentations, JAM, dumb charades, , etc.

Hence you are requested to inform the students to use the labs in the productive way.

## DEPARTMENT OF ENGLISH & FOREIGN LANGUAGES

### Lab Utilization Report (2017-18)

**English Multimedia Laboratory (SB-202) Date: 16 July 2018**

This report is to inform about the utilization of the English laboratory. The English lab is equipped with two interactive software, Cambridge English and The young India Clarity .net. Both the software enhance students' overall learning experience during the lab sessions and also enable the teachers to provide the students with ample opportunities to practice and produce the language skills, which include listening, speaking, reading and writing. These software also include ample exercises, activities and tasks on the core linguistic components such as grammar, vocabulary and pronunciation. The Cambridge software assists the teachers greatly to teach the technical aspects of English pronunciation both at the level of Phonetics and Phonology such as, production and articulation of speech sounds, structure and division of syllables, word accent, sentence stress and intonation patterns. Both the software have distinctive features which are designed to assist the learners in the acquisition and maintenance of aural comprehension, oral and written proficiency.

There are two Activity Rooms for the department. In Activity Rooms students' presentation skills, language activities, JAM sessions, Group discussions, etc are conducted.

All the first B.Tech and the second year students have benefitted from the English laboratory during the academic year and enhanced their capability by using the software

Head of the Department

Dr. Rosalia H. Bonjour
