	OR	
Q.1(B)	Write about the contributions of Scientific School of Thoughts in the field of management?	10 M
Q.2(A)	"Planning is looking forward and controlling is a looking back function" justify the statement.	10 M
	OR	
Q.2(B)	Give any five differences between formal and informal organizations?	10 M
Q.3(A)	Describe self-actualization, and how Maslow relates it to personality. What are some characteristics of self-actualized individuals? OR	10 M
Q.3(B)	List the factors which affect perception.	10 M
Q.4(A)	Distinguish between group and team? Explain different types of groups with their relative importance?	10 M
	OR	
Q.4(B)	Analyze the role of Women Leadership in Indian organizations?	10 M
Q.5(A)	Distinguish between organizational climate Vs organizations culture? OR	10 M
Q.5(B)	Describe the symptoms of stress and recommend the strategies to come out from it?	10 M
Q.6	Priya singh continued to drum her fingers on her desk. She had a real problem and wasn't sure what to do next. She had a lot of confidence in Jack Reed, but she suspected she was about the last person in the office who did. Perhaps if she ran through the entire story again in her mind she would see the solution. Priya singh had been distribution manager for software company for almost twenty years. An early brush with the law and a short stay in prison had made her realize the importance of honesty and hard work. Henry Clarkston had given her a chance despite her record, and Priya singh had made the most of it. She now was one of the most respected managers in the company. Few peoples knew her background. Priya singh had hired Jack Reed fresh out of prison six months ago. Priya singh understood how Jack felt when Jack tried to explain his past and asked for another chance. Priya singh decided to give him that chance just as Henry Clarkston had given her one. Jack eagerly accepted a job on the loading docks and could soon load a truck as fast as anyone in the crew.	10 M

Things had gone well at first. Everyone seemed to like Jack, and he made several new friends. Priya singh had been vaguely disturbed about two months ago, however, when another dock worker reported his wallet missing. She confronted Jack about this and was reassured when Jack understood her concern and earnestly but calmly asserted his innocence. Priya singh was especially relieved when the wallet was found a few days later.

The events of last week, however, had caused serious trouble. First, a new personnel clerk had come across records about Jack's past while updating employee files. Assuming that the information was common knowledge, the clerk had mentioned to several employees what a good thing it was to give ex-convicts like Jack a chance. The next day, someone in bookkeeping discovered some money missing from petty cash. Another worker claimed to have seen Jack in the area around the office strongbox, which was open during working hours, earlier that same day.

Most people assumed Jack was the thief. Even the worker whose wallet had been misplaced suggested that perhaps Jack had indeed stolen it but had returned it when questioned. Several employees had approached Priya singh and requested that Jack be fired. Meanwhile, when Priya singh had discussed the problem with Jack, Jack had been defensive and sullen and said little about the petty-cash situation other than to deny stealing the money.

To her dismay, Priya singh found that rethinking the story did little to solve his problem. Should she fire Jack? The evidence, of course, was purely circumstantial, yet everybody else seemed to see things quite clearly. Priya singh feared that if she did not fire Jack, she would lose everyone's trust and that some people might even begin to question her own motives.

Case Questions

- 1. Explain the events in this case in terms of perception and attitudes. Does personality play a role?
- 2. What should Priya singh do? Should she fire Jack or give him another chance.

MANAGERIAL ECONOMICS

Time: 3Hrs Max Marks: 60

Attempt all the questions. All parts of the question must be answered in one place only. In Q.no 1 to 5 answer either Part A or Part B only. Q.no 6 which is a case study is compulsory.

Q.1(A)	What is meant by Managerial Economics? Explain its Nature and Significance. OR	10 M
Q.1(B)	Discuss the role of Managerial Economist in changing business world.	10 M
Q.2(A)	Define Law of Demand. State its exceptions.	10 M
Q.2(B)	OR Write about A) Supply Function B) Elasticity of Supply	10 M
Q.3(A)	Explain Law of Variable Proportions.	10 M
Q.3(B)	OR Give an account on a) Cobb Douglas Production Function b) Iso-Quants and Iso- Cost	10 M
Q.4(A)	How Price and Output are determined under Monopoly	10 M
Q.4(B)	OR Critically explain Break- Even Analysis.	10 M
Q.5(A)	Differentiate Gross National Product and Gross Domestic Product with examples	10 M
	OR	
Q.5(B)	Define National Income? Explain various measurement methods of National Income.	10 M
Q.6	Case Study	10 M

The demand for gas

The freezing cold spell at the beginning of 2016 not only increased demand for road salt but it increased demand for gas in the UK. Usage reached 454 cubic metres; the previous record was 449m set in January 2009. The National Grid which is responsible for energy in the UK issued several warnings in a matter of days that demand could outstrip supply and asked supplier so increase the supply. The National Grid also told major gas users, such as power plants, to reduce demand. Big generators, such as E. On, have both gas-fired and coal-fired power stations and are able to choose between the two. In total, 27 large gas users were asked to switch - 12 in the East Midlands and 15 in the North West.

Questions

- 1. Illustrate the effect of the cold spell on the demand for gas using a demand curve diagram.
- 2. Illustrate the effect of the National Grid instructing major gas users to reduce their demand.
- 3. Analyse two other factors that you think influence demand for gas.
- 4. Do you think demand for gas is price elastic or price inelastic? Explain your reasoning.

	investing	abro	ad is	to b	e scr	utin	ized	by a	spe	cial	со	mmi	Application by Indian company for ttee represented by the Reserve By the time the government gave	

the clearance for the acquisition in December 1999 (i.e. more than a year after the application was made), the prices had bounced back to \$24 per barrel. And the Elf of France had virtually took away the deal from under IOC's nose by acquiring the Premier Oil.

The RBI, which gave IOC the approval for \$ 15 million investment, took more than a year for clearing the deal because the structure for such investments were not in place, it was reported.

Questions:

- 1. Discuss internal, domestic and global environments of business revealed by this case
- 2. Discuss whether it is domestic or global environment that hinders the globalization of Indian business.
- 3. Even if Elf had not acquired Premier Oil, what would have been the impact of the delay in the clearance on IOC.
- 4. What would have been the significance of the foreign acquisition to IOC.
- 5. What are the lessons of this case.

Case Study Electronic Records using Digital Signature

10 M

10 M

In an E-trade agreement, signature is based exclusively on asymmetric methods or techniques. It has been described as a special door, which can be opened with a four key lock. The two keys are on every side of the door, and each of these two keys belong to a single party. Both the parties stand respectively on each side of the door and both of them have different keys. One of them is coincidental with the key possessed by the other party, since they have agreed on the shape and notches in the key (public key). However, the other party is not, and none of the parties knows exactly, what kind of notches the other key will have. The only thing is sure that the door can only be opened when the four keys are in it. Once both the parties have locked the keys into the door it is possible to open it and for the parties to be sure that they can negotiate through that open door safely without being afraid that an outsider might interfere in their business.

Critically analyze the concept of e-governance in the IT Act-2000.

Question:

Q.5(B)

Q.6

1.Discuss with reference to authentication of electronic records using digital signatures

Q.6 Case Study 10 M	Q.6	Case Study	10 M

In January 2005, Nestle announced that it would make Peter Brabeck-Letmathe (Brabeck) as its Chief Executive Officer (CEO), the combined CEO and Chairman of the Company. Brabeck, who has served Nestle for eight years as its CEO, is the next to succeed Rainer Gut (Gut) as the Chairman of Nestle after Gut retired on April 14th 2005. Reacting to the decision of Nestle, Ethos Foundation (Ethos), along with a group of other pension funds, submitted their proposals at Nestle's AGM demanding the company to change its policy of promoting the role of combined Chairman and CEO. Other proposals of Ethos included reduction of the tenure for directors on board from five years to three years and also decrease in the threshold shareholding equity for filing resolutions at the annual meetings from 1 million francs (as prevailing at Nestle) to 100,000 francs.

It was opined that Nestle was not following the standard practice of international corporate governance that man dates two different individuals to hold the positions of Chairman and CEO. Moreover, 95% of FTSE 350 companies follow the practice of separating the roles of Chairman and CEO. While in Britain, France and Switzerland, the practice of separating the role of the Chairman from the CEO is getting more prominence; in Germany, the two are separated under law. The tide is also turning in the US where companies had traditionally combined the responsibilities of the CEO and Chairman. By 2005, one-third of the Fortune 500 companies have split the roles of CEO and Chairman.

It was observed that Nestle was unsuccessful in finding a competent person for the post of CEO. Gavin Anderson, CEO of Governance Metrics International (GMI) commented, "The Board has failed in succession planning." However, Nestle argued that it followed the decision of its Board of Directors and its Executive Board that voted Brabeck as the best man to hold both the positions. Brabeck said, "For us, the decision must be about a well thought-through governance construct that seeks the smoothest and most cost-effective division of responsibility for strategy, control and execution between the board of directors and the executive board. We have come to the conclusion that — under present conditions — the best solution for Nestle is the double mandate."

Questions:

- 1. Why the Nestle was not followed the standard practice of International Corporate Governance that mandates two different individuals to hold the positions of Chairman and CEO?
- 2. How the Brabeck, the combined CEO and Chairman of the Company Nestle justified its decision?
