ABOUT MITS

Madanapalle Institute of Technology & Science is established in 1998 in the picturesque and pleasant environs of Madanapalle and is ideally located on a sprawling 26.17 acre campus on Madanapalle - Anantapur Highway (NH-205) near Angallu, about 10km away from Madanapalle.

MITS, originated under the auspices of Ratakonda Ranga Reddy Educational Academy under the proactive leadership of Late Sri. N. Krishna Kumar M.S. (U.S.A), the then President and Dr. N. Vijaya Bhaskar Choudary, Ph.D., Secretary & Correspondent of the Academy.

MITS is governed by a progressive management that never rests on laurels and has been striving conscientiously to develop it as one of the best centers of Academic Excellence in India. The Institution's profile is firmly based on strategies and action plans that match changing demands of the nation and the students fraternity. MITS enjoys constant support and patronage of NRI's with distinguished academic traditions and vast experience in Engineering & Technology.

Institute Vision

To become a globally recognized research and academic institution and thereby contribute to technological and socio-economic development of the nation.

Institute Mission

To foster a culture of excellence in research, innovation, entrepreneurship, rational thinking, and civility by providing necessary resources for generation, dissemination and utilization of knowledge and in the process create an ambience for practice-based learning to the youth for success in their careers.

ABOUT US

The Department of Computer Science & Technology (CST) offers 4-year degree, which is established in the year 2018 and plays a vital role in producing value-based professionals to cater to the ever-challenging needs of technical excellence in the emerging areas of CST. The department offers one UG program with an intake of 60 students and the intake was enhanced to 180 seats in the year 2019. Department has adequate infrastructural facilities required for imparting high quality education and the department is fully structured to meet the contemporary needs of the industry. Imparting high quality education is supported by well qualified and experienced faculty members with rich academic and industry exposure, who have pursued Masters/Ph.D degree from prestigious institutions like NITs, IITs, and Central Universities within India and abroad. Seminars, Workshops, and Technical Symposia are conducted in the department to keep faculty and students updated with latest developments in various technologies.

Department Vision

To bring forth globally competent engineers with societal consciousness, who thrive in academics and research in Computer Science & Technology.

Department Mission

M1: To deliver technical education of the highest quality by improving the curriculum and using effective pedagogical techniques by qualified faculty.

M2: To foster interaction between Industry and academia, to improve students' abilities in research, innovation, and entrepreneurship.

M3: To prepare the students to become professionally competent and intellectually adept by imparting required Skills to mitigate the societal problems.

Program Outcomes (POs)

PO1: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

PO2: Problem analysis: Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences

PO3: Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

PO6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues, and the consequent responsibilities relevant to the professional engineering practice.

PO7: Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

PO9: Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PO12: Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Program Educational Objectives (PEOs)

PEO1: Graduates will have successful career by contributing for innovation of new technologies and systems in the key domains of Computer Science & Technology.

PEO2: Graduates will be able to perform technical/ administrative roles in information technology industry / R&D sectors and pursue higher education in reputed institutions.

PEO3: Graduates will be ethically and socially responsible towards the societal development and opting a career as an entrepreneur with moral values in various domains of Computer Science & Technology.

MESSAGE FROM THE HEAD OF THE DEPARTMENT

**Prof. Dr. M. Sreedevi HoD,
Dept of CST,
MITS.**

A warm greeting to all!!

It is my pleasure and honor to introduce the Department of Computer Science & Technology at MITS. We have state-of-the-art infrastructure, laboratory facilities and highly qualified and experienced faculty to impart quality education. We are proud to contribute to their advancement and the society at large. This newsletter (2020-2021) highlights the key areas of our activities, strengths, and accomplishments. With the strong support of our dynamic faculty, hardworking staff, and ambitious students, we have created an environment that fosters collaboration, a culture of accomplishment and strong support of ethnic and intellectual diversity.

“Today’s cutting-edge technology becomes a legacy solution in a couple of years in the current technological environment. The only way out conundrum is a persistent endeavour to upgrade one skill set and domain expertise. In this passion for achieving excellence, the CST department is determined to empower students to become invaluable assets for any organization.”

MESSAGE FROM EDITORIAL TEAM

It is a matter of great pride and privilege for us to present Newsletter of CST Department, MITS. This newsletter is intended to be published twice in a year which serves as a platform to highlight the literary and artistic segment of the CST Department of MITS family. The essential purpose of the newsletter is to inform, engage, inspire and entertain a diverse readership -- including alumni, faculty, staff, students, parents and other friends of the institute by presenting an intimate, timely and honest portrait of the Department -- its people, its activities, its placements, its resources and its mission.

In the originality of its conception, in the excellence of its writing and visual presentation and in its commitment to accuracy, healthy discourse and editorial balance, the magazine endeavors to reflect the values and the quality of the department itself. By maintaining the respect and interest of its readers, this newsletter aspires ultimately to inform their opinion of the department and to strengthen their commitment to its welfare. We hope you enjoy reading this issue as much as we have enjoyed making it.

Happy Reading!!

**Dr. K. Dinesh
Associate Professor
DEPT OF CST**

EVENTS ORGANIZED

(Webinars, Seminars, Guest Lectures, Workshops, FDP's, Awareness Programmes)

1. A Webinar on “Python and Emerging Trends in Machine Learning” Organized by CST 02.06.2020.

2. A Webinar on “Industrial IOT and Intelligent Connectivity using Raspberry PI” Organized by CST 16.07.2020.

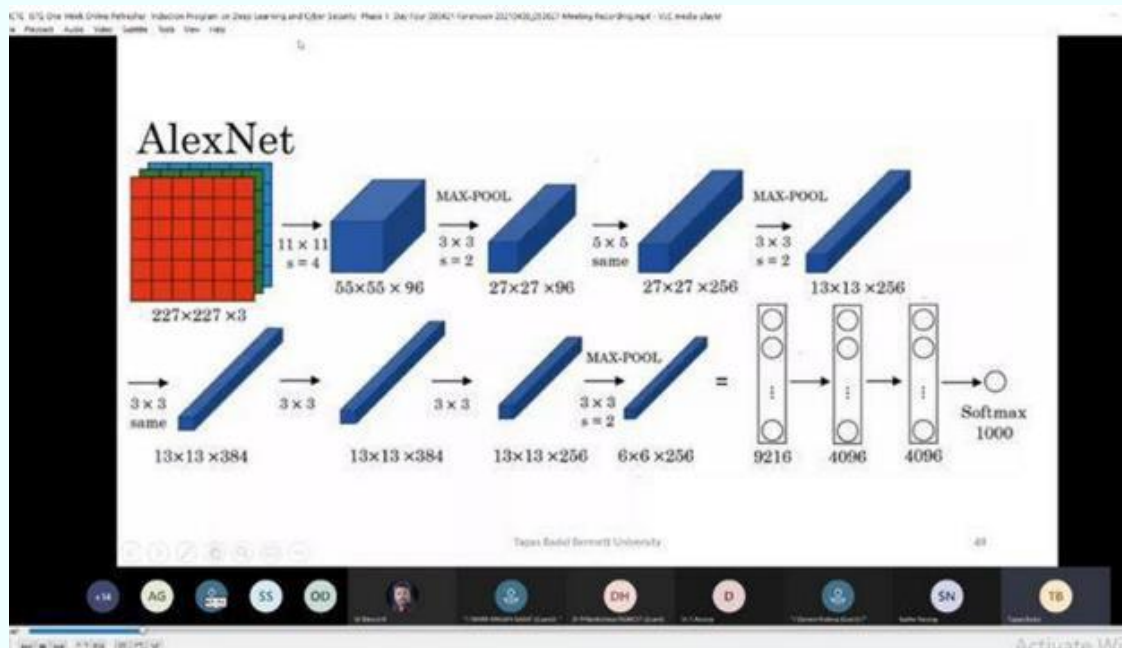

3. A 5 Days Online FDP on “Online tools for Teaching and Research” Organized by CST 27.07.2020 to 31.07.2020.

4. A Webinar on “Data Science and its learning techniques” Organized by CST 13.08.2020.

5. A One Day online Guest lecture on “Emerging Trends in IT-An Industrial approach” Organized by CST 01.09.2020.

6. A Webinar on “Introduction to Block chain” Organized by CST 05.10.2020.

7. A Webinar on “Walk through in Python for Machine Learning” Organized by CST 10.11.2020.

8. A Virtual Lecture Workshop on “Modern Computational Techniques” Sponsored by Science academics Organized by CST 10.12.2020 To 11.12.2020.

Programme Schedule	
Title of the Talk	Resource Person
Day 1 : 10.12.2020 (Thursday)	
Streaming Algorithms: A paradigm for Dealing with Big-Data - I	Dr. Saket Sarubh, FNASc.,
Computational Techniques	Dr. P. Kandaswamy, FNASc.,
Machine Learning – How and Why of feature weights?	Dr. S.Padma
Introduction to Structural Bioinformatics & It's applications in discovery of drugs and vaccines using Machine Learning	Dr. Debasisa Mohanty, FNASc.,
Day 2 : 11.12.2020 (Friday)	
Impact of Emerging Technologies and Challenges in Cyber Security / Physical System and its Threats / Attack	Dr. K. K. Soundra Pandian Ph.D (IIT Patna), PostDoc(NYU)
Streaming Algorithms: A paradigm for Dealing with Big-Data - II	Dr. Saket Sarubh, FNASc.,
Optimization Techniques	Dr.K.Dinesh

Registration

No registration fee will be charged. Participants can register their names in the following link on or before 08.12.2020. Number of participants will be restricted to 150 only. eAttendance certificate will be issued to all the participants. 80% attendance is mandatory.
