## Attended Students and Faculty:

### Faculty:

Dr. K. Chokkanathan, Assoc. Professor & HoD of AI&DS

Dr. P. Athahar Samina Khan, SAO (Student Welfare)

Mr. K. Durga Charan, Asst. Professor, AI&DS

Mr. J. Viswanath, Asst. Professor, AI&DS

Mr. T. Pawan Kumar, Asst. Professor, AI&DS

### Students:

Nearly 130-140 Participants from various departments includes AI&DS, Civil, ECE, EEE, CST & Mechanical

350 Students registered for this event from various departments includes AI&DS, Civil, CSE, CST, ECE, EEE & Mechanical

## Introduction about Skill Bee

In SAC-MITS, the skill bee club is a relatively new club. Mr. K. Durga Charan, an assistant professor in the AI&DS department, serves as the club's faculty counsellor. M. Rasheed Ahamed from AI 3rd Year Btech serves as the club's student coordinator.

In Skill bee club, students will be functioning as mentors for other students, which means that if one student is knowledgeable about a particular skill or certain talent, He or she will be sharing that skill with other students through online mode.

In Skill bee club every event begins with an introduction class in which we motivate students how easy it is to learn that skill and uses of that skill in their lives, after which a thorough recorded video explanation of that specific skill is uploaded in the skill bee mits YouTube channel and posted back-to-back for 7–10 days. This YouTube channel was created because using other platforms would increase the likelihood of interactions between seniors and juniors. To counter this, we upload our videos to this YouTube channel.

After ten days, a competition will be held in which the best project creators will get awards, certificates, and other recognition.

## Objective of Build Your First Mobile App Event

The main objective of this event is inaugurating of our Skill bee club and to motivate students about how easy it is to develop an android application, PayScale's of android app development, Freelancing opportunities and to teach about different concepts related to android app development.

Skill Bee Club Logo

## Inauguration

The event began with a lighting and pooja ceremony by Dr. K. Chokkanathan HoD of AI&DS department, Dr. P. Athahar Samina Khan Senior Administrative Officer (Student Welfare), Mr. K. Durga Charan, Asst. Professor, AI&DS, and Mr. J. Viswanath, Asst. Professor, AI&DS along with some Students. And a prayer sung by R Bhavana from AI-III Year Btech.

Following the pooja ceremony, each dignitary offered their speeches to inspire the students related to their careers and importance of skills in the industries.

## Speech by HoD of AI&DS Department:

Interacting with the Students, Dr. K. Chokkanathan sir HoD of AI&DS department explained that the goal of the skill bee club is to improve one's knowledge of contemporary technologies. Sir also explained about the current popular technologies like AI and ML. He inspired students to learn new things and use the skill bee club to its fullest potential.

## Speech by Senior Administrative Officer (Student Welfare)

Followed by speeches from the Dignitaries, Dr. P. Athahar Samina Khan Madam, Senior Administrative Officer (Student Welfare Office) congratulated the skill bee coordinators and volunteers for the efforts they have put for the club. Mam given a glimpse of ideas on the purpose of the club and suggested students to indulge the knowledge from skill bee club and explained about Student Council. Mam mentioned the message from our beloved Principal sir of MITS Dr. C. Yuvaraj sir congratulating and his best wishes for the club.

## Speech by K. Durga Charan Sir:

Followed by the speech by faculty coordinator Mr. Durga Charan, Assistant professor of AI&DS. Sir shared his view of learning from only class which is traditional format, and that knowledge is like a skeleton and learning from both the classes and from club activities that knowledge is like a perfect human. He explained about the importance of acquiring knowledge through the concepts and insisted students learn and make best for the club. And he promised his support for the club would be always there for the aid of the club.

## Speech by J. Viswanath Sir:

Next the speech by Mr. Viswanath sir, Assistant professor of AI&DS. Sir, interacted with the students, and he guided them to be disciplined and told them about the importance of self-learning. And motivated students through his enthusiastic words.

## Speech by T. Pawan Kumar Sir:

Then speech by Mr. T. Pawan Kumar sir, Assistant professor of AI&DS. Sir spoke about the importance of learning skills and making best usage of these skills in the fields of freelancing and cheered students to follow up the club activities and given his best wishes to the club.

## Oration by B. Bhuvan Kumar:

Followed by the member of Skill Bee Mr. B Bhuvan Kumar cheered to share about the Club. He elated the importance of Joining this club for a student can bring a lot of educational and life making skills which could bring about the positive aspects in their career. He said the notion of the club by comparing it with nature as it is the best teacher. Like the honeybee's skill bees are those who are gonna suck the skills and become the architect to build their career.

He explained about the main theme of the club, that there are two major roles in the club i.e. mentor and learner, mentor is the person who acts as a guide to share his knowledge to the fellow students and learner is the person who is benefitted by gaining the knowledge and he encouraged the students who are interested in any of technical and non-technical skills to be part of the club and asked students to share their ideas and views to the club.

## Demonstration of Android Studio by Club Coordinator:

M. Rasheed Ahamed, the coordinator of the Skill Bee club, took over the session and discussed how Android app works, the pay structure for Android developers, the many roles of Android app developers, and how much money Freelancers are earning through this Android app development.

During the discussion, he also covered the development of Android, the Android stacks, the Android evolution and the distinction between system and user applications.

After that he explained about the languages used in android studio. He began to explain about the xml in which he covered layouts in android studio, what is meant by views in which he explained about the button views, TextViews, Image views, EditText view, Viewgroups, nested view groups, and then he explained about the backend code using java in which he covered how button works, methods, classes. He explained clearly about the different files in android studio and the roles of files in android application.

Then one app was built in front of all the students. Before ending the session, he explained about the projects, competitions held in skill bee club. Then he thanked everyone and took feedback from all the students.

## Thank You

We express our sincere thanks to the Principal sir, the Management, Dr. K. Chokkanathan sir HoD of AI&DS, Dr. P. Athahar Samina Khan Madam, SAO (Student Welfare), Faculties for their support and encouragement in organizing this event.
