Testimonials by students

I am Chershitha Reddy. From MITS, CSE department. After attending the UHV(universal human values) program i learnt many things, some of them are-1.How to respect everyone irrespective of their age, jobs and race.
2.To listen to the decisions of everyone and i overcame my peer pressure.
3.recently i started gardening and planted many plants.

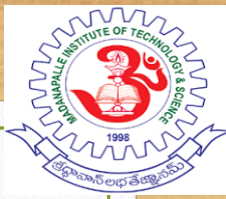

Myself i am Vyshnavi,MITS CAI -C department.From UHV i have learnt a lot of things some of them are1. The purpose of our life is to be happy and prosperous2.we should not let our happiness depend on other and live the way we like.3.Every one has right to be respected and all are equal irrespective of their age,gender and profession.4.Finally we get what we give So spread HAPPINESS

I am Diksha. M from CSE Department , Universal Human Values (UHV) program has helped me a lot to improve myself . - I have started to put my relationships before physical facilities. For example: A very small incident that happened during my UHV classes, is that I wanted to wear a dress of my choice but my mom ,she wanted me to wear a dress I didn't prefer. I just thought for a minute and realised that I wanted to put my relationships before my physical facilities and wore my mom's choice of dress . - I have understood the basic need of love is trust.- and understood that happiness and prosperity should be our goals for life- right understanding, relationship and physical facilities are the basic things required to lead a happy life.
